

**Product name:** MAGICUS

**Product range:** all-purposeHYGIENE

## **Product description:**

Timelessly beautiful scent and light column which adapts to each environment. The light creates a pleasant atmosphere and can either alternate the colour or shine in monochrome. The room perfume is heated, which causes it to evaporate and is evenly distributed throughout the room by a low-noise fan. The power consumption is 15 W during operation. Individually programmable due to a built-in timer, therefore very economical. Optimally suitable for rooms of an average size of 50-250 m². Operated with a power supply unit.

### Packaging unit:

1 piece Art.-No. 4450800100

### Field of application | use:

A special welcome for each guest entering the room. Thus optimally suited for lobbies and receptions to always keep the first impression in good memory. The combination of light and scent creates a pleasant feel-good atmosphere and prolongs the duration of stay. This effect can ideally be used in stores to convey a cosy atmosphere to entice customers to purchase.

#### **Dimensions:**
