

hup – disinfectant wipes with a system

Kitchen hygiene: easy, practical, safe and quick

Do you still spray?

Cleaning plus rapid disinfection is indispensable, especially in the kitchen. Surfaces and objects are hotbeds for pathogens, allowing them to inadvertently spread to food.

Everyday life in the kitchen is hectic. All the more reason to make surface disinfection easier, more practical, safer and faster.

- *Ready-to-use wipes*
- *Wipe once to clean and disinfect*
- *No application errors*
- *No spraying: no aerosols, no health hazards*
- *No harmful residues on surfaces*
- *No rinsing with water – just one action*
- *Works in just one minute*
- *Wipe, allow to dry – job done*
- *Certified disinfection results*

or do you already disinfect?

All good things come in fours.
