

hup – disinfectant wipes with a system

For all surfaces: easy, practical, safe and gentle

Effective against germs

Where people come together in large numbers, rapid-cleaning disinfection is indispensable. Surfaces and objects provide the perfect breeding ground for pathogens – transferring these germs to the body without our knowing it.

All the more reason to make surface disinfection easier, more practical, safer and more gentle.

In many cases, high-end, quality surfaces are made of sensitive materials requiring careful treatment to keep them that way.

hup DES PLUS disinfectant wipes can even be used on wood, leather and Plexiglass*.

- Ready-to-use wipes
- Wipe once to clean and disinfect
- No application errors
- No spraying: no aerosols, no health hazards
- No unsightly residues on surfaces*
- No rinsing with water – just one action
- Works in just one minute
- Wipe, allow to dry – job done
- Certified disinfection results

* Not suitable for screens

– kind to materials and skin

All good things come in fours.

hup DES PLUS M

Ready to use: medium-sized wipes for medium-sized areas and objects ($\approx 1 \text{ m}^2$ per wipe)

- Resealable pack
- Reliably easy to remove
- Handy, versatile, usable anywhere

hup DES PLUS XL roll

Ready to use: large wipes for large areas ($\approx 2.5 \text{ m}^2$ per wipe)

- For safe use with hup BOX, the airtight wipe dispenser system
- Wall-mountable (hup wall holder)
- Can be stored right where it's needed.

hygienicPLUS

+ EU Ecolabel and FSC paper

Eco-friendly

- pH-neutral disinfectant for surfaces
- Simply apply as foam to the surface.
- Spread with EU Ecolabel or FSC® paper from Hagleitner.

hup DRY XL roll

+ hygienicPLUS

Versatile

- Apply the disinfectant as foam to the surface and spread it with the non-woven wipe
- or soak the non-woven wipe roll with 2 l of hygienicPLUS.
- Both are ideal for dispensing the active ingredient.

Suitability

Where skin and surfaces touch

- Gentle on materials and skin
- Non-marking: non-corrosive, non-irritant, non-flammable
- Skin-friendly use
- Can be used without gloves
- Skin-friendly surfaces
- Dermatologically tested
