With the green efficiency concept, Hagleitner has ensured: All chemical dosing products in the kitchen and laundry hygiene are produced without NTA, EDTA and phosphates. They

have been replaced by harmless alternatives: a claim that is trend-setting - for the entire industry.

Transparency

When does a dishwasher run? When do the others run?
The app compares and creates transparency.
So, expenditure can be planned.

- + Crystal clear facts**
How many dishes are washed? How much chemical volume does it consume? How much water and energy is used?
- + The right tip**
On a smartphone all information is at hand.
- + Strike a balance**
Would you like a PDF in your mailbox? With current values?
- + Anticipation**
Here this period, there that. The comparison pays off - and it helps to shape the future more efficiently.
