

Innovative Hygiene.

integral 4PURE/MIX

For a hygienically clean kitchen –
sustainable and safe

Pure or mix

The choice is yours.

Food safety

This dosing system promotes food safety: cleaning agents and disinfectants are listed and certified, making it possible to work HACCP-compliant. It's all about your hygiene standards.

Sustainable

The cleaning agent is produced on site, the dosing device produces it directly there. This significantly reduces storage and transport volumes by up to 80 per cent. CO₂ emissions are reduced accordingly, as is plastic waste.

Digital = efficient

What can be measured can be improved, which is why integral 4PURE/MIX can send digital data: Kitchen hygiene can be planned and documented – and the work is more efficient than ever.

Application safe

This cartridge protects: Any contact with the concentrate inside is excluded; circulation in the system only opens when the cartridge engages securely into the dispenser. RFID technology also detects which cleaning agent it needs at that moment.

Versatile

Ready-made cleaning solution? Pure dispensing? Filling bottles or a bucket? The choice is yours.

Transparent

You can always see the operating status at a glance, consumption values, refill cycles and service intervals can be evaluated around the clock. Because the dosing device supplies data in real time.

Cost-effective

integral 4PURE/MIX dispenses with absolutely no fluctuations, the dosage is always spot on. You buy a cartridge and know exactly how much cleaning agent you are getting for your money.

Five highly concentrated products

For kitchen cleaning and disinfection.

ecosol GREASE 4PURE/MIX

2 x 1.3 l Art.-No. 421010204400

- Dissolves grease stains in no time at all
- Suitable for the daily routine cleaning of all kitchen surfaces (e.g. extractor hoods, work surfaces, tiled backsplashes and fixtures)
- Can be used in pure and mix mode
- Fresh citrus scent

ecosol GRILL 4PURE/MIX

2 x 1.3 l Art.-No. 421010244400

- For a gleaming, shiny grill
- Ideal for the daily cleaning of grill, oven and more
- Dissolves even burnt-on stains
- Foams well, even adheres to vertical surfaces
- Can be used in pure and mix mode
- Perfume-free

ecosol DISHES 4PURE/MIX

2 x 1.3 l Art.-No. 421010214400

- The hand dishwashing detergent with nourishing skincare extracts
- Removes dried-on food residues quickly and effectively
- Easily removes grease and protein stains
- Can be used in pure and mix mode
- Scent of green apples

ecosol DES 4MIX

2 x 1.3 l Art.-No. 421010224400

- The QAC-free disinfection product
- Particularly suitable for the foodstuffs sector
- Disinfects and cleans in one go
- Acts as a bactericide and fungicide according to EN 1276, EN 1650 and EN 13697
- Can only be used in mix mode
- Perfume-free

ecosol GRIP FLOOR 4MIX

2 x 1.3 l Art.-No. 421010234400

- The enzymatic miracle worker for your floor
- Special enzymes make the floor clean – without wiping; this saves water and time
- Increases slip resistance with regular use
- Prevents unpleasant odours on the floor and in the drain
- Can only be used in mix mode
- Fresh lemon scent

The digital kitchen cleaning system

All data – always available, anywhere

greenOvative

Sustainability starts where you begin saving resources. Hagleitner has been pursuing one philosophy for over 15 years: manufacturing concentrated products of the highest quality, reducing the transport of water to the absolute minimum and to protect the environment.

This is illustrated by the example of ecosol GREASE, a fat solvent: from a multiFILL cartridge with 1.3 litres, you can produce up to **433 litres** of finished application solution.

Translating this to 10 kilo canisters, this equates to 43 plastic canisters – or 866 plastic bottles (500 ml), which would have had to be produced, filled, transported, stored and disposed of.

Up to
