

INTELLIGENT HYGIENE.

The *integral COMPACT* system

ensures clean dishes at the touch of a button and impresses through easy handling.

- + Clean result at best price**
The integral COMPACT system keeps your costs under control
- + Automated filling level control:**
always satisfactory results
- + High user safety**
automated complete emptying of the cartridges

green efficiency is the name of the **HAGLEITNER** sustainability concept. All dosed detergents for kitchen and laundry hygiene are produced free of NTA, EDTA and phosphates. These raw

materials have been substituted with environmental friendly alternatives carrying no adverse health effects. A trendsetting ambition for the entire industry.

Innovative Hygiene.

Unique services.

- Unique one-stop system solutions
- Cost analysis and dosing quantity comparison as objective decision-making tools
- Detailed operating data monitoring
- A free analysis of dishwashing costs will show your cost savings if changing to the **Hagleitner** system

integral COMPACT system
for professional dishwashing

eng

BENEFITS OF THE SYSTEM

- product mix-ups are prevented by using RFID technology for communication between dosing unit and multiFILL cartridge
- precise dosing through accurate and continuous monitoring of the chemical concentration (fuzzy logic)
- handy multiFILL cartridges ensure order and hygiene, offer easy handling as well as very high user safety
- flexibly extensible for large machinery
- No unnecessary transport of water - thus active environmental protection
- Integrated, automated filling level control indicates required cartridge replacement
- Supports compliance to HACCP guidelines through a visual or acoustic signal when the temperature has fallen below the minimum value or in case of other discrepancies in the wash cycle

Quality assurance in the kitchen. HAGLEITNER communication light

Using **HAGLEITNER** communication light software enables you to permanently monitor your dishwasher from your PC based on live data. The data acquired is archived and can be analyzed in statistics. Thus you always have a perfect overview of what's going on in your scullery at the touch of a button.

DETERGENTS

integral COMPACT

Art.-No. 4700201750

- Most modern computer-controlled dosing technique for commercial dishwashers
- Modularly constructed, therefore flexible and extensible
- Solid concentrate in block form is flushed out through the patented multiFILL cartridge
- The water-concentration mixture is precisely dosed into the machine tank controlled through inductivity

integral COMPACT DISPLAY

Art.-No. 4700202100

- Controls the new COMPACT system
- The individual devices are connected with the display box by means of a bus cable
- The modular system enables a flexible installation of the display in easily accessible locations
- Logging of all HACCP relevant data through real-time clock

RINSE AIDS

integral FLUID

Art.-No. 4700201850

- Most modern dosing technology for exact dosage of our highly concentrated rinse aids and add-on products
- The automatic level control immediately indicates when the cartridge is empty
- The special speed-controlled **HAGLEITNER** pump ensures highest possible dosage accuracy, even at minimal dosage

integral COMPACT CONNECTOR

Art.-No. 4700202000

- Connection box for all required signals from the machine
- Is positioned within the machine in order to ensure the operating safety
- Simple connection to the dispensers and the display merely by means of a BUS cable

ecosol COMPACT detergents.

ecosol CLEAN – For the first time, there is a powerful solid detergent available that carries both the EU ecolabel and the Austrian ecolabel, confirming the environmental friendliness of this product. We refrain from using health and environmentally hazardous substances as part of our green efficiency concept. Therefore, we have consciously formulated all detergents listed herein to be free from NTA, EDTA and phosphates.

ecosol CLEAN Art.-No. 4220100119

Solid, highly concentrated dishwashing detergent in block form. Highly economical. For higher water hardness, we recommend the additional use of integral LC.

Suitable for water hardness up to 15°dH.

ecosol CLEAN ALU Art.-No. 4220100619

Solid, highly concentrated dishwashing detergent in block form. Especially recommended for the removal of persistent soiling (protein, sugar, grease) from pots, pans, baking trays, whisks, tart-rings, etc.

Economically applicable also for high water hardness.

ecosol CLEAN WS Art.-No. 4220100519

Solid, highly concentrated dishwashing detergent in block form. For intensive cleaning. For lasting prevention of streaks, while minimising the need for intensive dishwashing.

Excellent for water hardness up to 5°dH.

ecosol CLEAN DES Art.-No. 4220101019

Solid, highly concentrated dishwashing detergent in block form. Contains special bleaching agents and is therefore ideally suited for such stubborn stains as coffee and tea rings. Has a disinfectant effect.*

Excellent for water hardness up to 10°dH.

Specially developed rinse aids for the integral COMPACT system.

ecosol COMPACT rinse aids offer high active agent concentration and a deep gloss effect combined with a high productivity.

ecosol BRITE N Art.-No. 4220200119

Concentrated, neutral, high quality gloss agent for glass and dishwashing.

Economically usable up to a water hardness of 15°dH.

ecosol BRITE S Art.-No. 4220200219

Concentrated, acid, high quality gloss agent for glass and dishwashers.

Economically usable up to a water hardness of 15°dH.

Highly concentrated add-on products for efficient dishwashing.

Ensure an optimal rinsing result and enhance the application flexibility.

ecosol LC Art.-No. 4220300219

Liquid, concentrated water softener. Complexes the water hardening ions to prevent the build-up of limescale. Machine parts are protected and the operational life span of the machine is extended. Can only be used in combination with one of the ecosol CLEAN detergents.

ecosol OSMO PLUS Art.-No. 4220300319

Liquid, high-duty defoamer for use in dishwashers. Prevents excessive foam generation. This improves the mechanism of the dishwasher and prevents foaming over or streaks caused by foam residues. Can only be used in combination with one of the ecosol CLEAN detergents.
