**Innovative Hygiene.**

**People are the measure of all hygiene**

Good hygiene is never about self-interest, but rather about people – you and everyone connected to you.

Imagine happy customers, satisfied partners, cheerful employees. Hagleitner puts itself in your position to meet your best interests – after all, you want people to be in safe hands.

Hygiene is about health: that's why disinfection from Hagleitner will guarantee your peace of mind.

Hygiene is about aesthetics: Hygiene is a question of aesthetics: that's why Hagleitner dispensers offer a choice of over 1,000 extraordinary designs & colors.

Hygiene appeals to all our senses. Not only does it aspire to be seen, but also to be smelt, felt and touched.

Hygiene speaks volumes: Hagleitner has been gathering a wealth of knowledge since its foundation in 1971. It's knowledge that's crying out to be shared – with you, too. Cue the Hagleitner Academy!

Hygiene speaks volumes: Hagleitner has been accumulating knowledge since its foundation in 1971. It's knowledge that desires to be shared - with you & further. The Hagleitner Academy is the perfect place to find this knowledge.

Hygiene connects people. Service connects people. Hagleitner delivers this service in person: promptly, reliably, professionally and excellently.

Quality is equally non-negotiable as sustainability:

Instead of microplastics, crushed corncobs and ground olive stones are used in cosmetics. Thanks to dosing technology, the cleaning agent can be produced directly on site. In terms of transport, this means up to 80 percent less water, and CO<sub>2</sub> emissions are minimised. This also applies to service trips to the hygiene dispenser: the dispenser provides digital self-assessment of maintenance requirements, making unnecessary trips a thing of the past.

Digitalisation, efficiency and sustainability thus go hand in hand, because quality cannot be compromised.

It's also the reason Hagleitner researches, develops and produces in the heart of Europe, in the middle of Austria. It's why Hagleitner pursues an international and networked approach. It's why Hagleitner is a family business, consistent and sustainable for generations.

# About the company

Hagleitner designs hygiene: detergents and disinfectants, cosmetics – plus dispensers, dosing devices and apps. The products are created in Austria in Zell am See. This is where Hagleitner has its headquarters and it is where research, development and production take place. There are also sales offices in twelve European countries, allowing Hagleitner to operate at 27 locations.

Products are also available in 63 countries worldwide through partners.

Hagleitner's range of products is geared towards companies and public institutions (with the hagi brand directly aimed at private customers).

Hagleitner employs over 1,300 people.

## Made in Austria

Three manufacturing areas are combined in Zell am See:

- The chemical-technical part produces hygiene products. These are disinfectants, including medical products. Soap, shower gel, moisturiser and body lotion are also produced. Hagleitner makes professional cleaning, laundry and dishwashing products – as well as room fragrances.
- The paper plant converts raw paper into hygienic paper to make toilet paper and paper towels.
- High tech comes into its own in the dispenser design, the devices delivering hygiene as well as data. Hygiene means soap, paper, skin care, disinfection, cleaners, room fragrance; data means consumption, fill level, energy status, service requirements. The plastic components for manufacturing the dispensers come from next door, 25 metres away, formed by the company's own injection moulding plant.

## Research and knowledge

Hagleitner runs its own chemical laboratory on site. Hagleitner designs future devices on site. Hagleitner creates digital applications on site; hygiene needs to be configurable, and information and knowledge need to be retrievable.

Talking of knowledge: The in-house academy organises training courses and seminars; the offer extends to customers, partners and employees alike.

## Family

Hagleitner Hygiene has been around since 1971 and is still firmly in family hands. Hans Georg Hagleitner took over his father Johann's business in 1988 and has managed operations ever since. Hans Georg's daughters Katharina and Stefanie also play leading roles today: Katharina manages the Italian business; Stefanie is responsible for the product range and the consumer brand hagi.

[hagleitner.com](https://hagleitner.com)

# Vision and values

## Quality, future, enthusiasm, tradition – and always in center of our attention: People

Hagleitner products are made in Austria and meet the utmost quality standards. For the company, however, quality doesn't stop with the finished product, but where it makes its first impact – virtue of outstanding service. Professionally trained hygiene advisers provide support in all hygiene matters. So that you are well looked after.

Hagleitner is shaping the hygiene world of tomorrow, today. In the spirit of innovation, the company develops sustainable hygiene solutions for the future, making sure you are always one step ahead when it comes to hygiene.

To be at the forefront of innovation, you have to be passionate about what you do: improving hygiene every day – that's what spurs Hagleitner on, out of passion and enthusiasm.

At the same time, the company builds on tradition: Hagleitner has been around since 1971, when Johann and Katharina Hagleitner laid the foundation stone. Now, the second and third generations work closely together. Hans Georg Hagleitner runs the business, while both of his daughters play an active role in shaping the company: Katharina manages the Italian business; Stefanie is responsible for the product range and the consumer brand hagi.

Vision & values

# Environmental hygiene

Hygiene is about health, it is about us humans: sustainable and lasting for generations – which is why it goes without saying that environmental hygiene is part of it.

## Energy efficiency and renewable energy

Hagleitner pools its expertise at its headquarters in Zell am See, making it unnecessary to transport anything from one production site to another. Three production areas meet door to door: the hygiene and disinfection plant, the paper processing plant and the hygiene dispenser plant.

More than 800 photovoltaic modules cover the roof on site, meeting more than a third of the company's electricity needs when the sun shines in summer. A well cools the injection mould when the dispenser part takes shape; the excess heat is used for heating.

## Greenovative hygiene

Environmental hygiene comes in many manifestations: ground corn cobs and crushed olive stones. Both have proven to be GMO-free, both replace microplastics as cosmetic additives.

Environmental hygiene is not limited to any one area, as can be seen in facility hygiene, for example: for every field of application there is at least one product with the EU Ecolabel – from sanitary and glass cleaners to kitchen and all-purpose cleaners.

Environmental hygiene and innovation are mutually dependent: for instance, dosing technology prepares the cleaning agent on site, which means up to 80 percent less water in the cartridge or bottle. Less water means less weight on the road, by rail and by air, keeping CO<sub>2</sub> emissions to a minimum.

It is no different with the hygiene paper: The roll is wound around a slender rod tightly & densely. This yields four times as many sheets as would normally be possible without affecting the overall diameter. The rod in the middle is made of recycled plastic. It is returned to Hagleitner and reprocessed.

## Digital meets sustainable

The service trip to the hygiene dispenser is no different: the device provides digital information about maintenance requirements via smartphone, negating any unnecessary trips.

Talking of hygiene dispensers: the rechargeable battery has been available as an energy source since 2020, introduced by Hagleitner – a world first on the professional hygiene market.

As an alternative, there is a mains adopter. There is also the energyBOX, which bundles battery power; it is also made of recycled plastic. At the end of its service life, Hagleitner likewise takes back the energyBOX and recycles it, completing the cycle.<sup>1</sup>

## Small and perfectly formed

The refill for the hygiene dispenser is in the patented vacuumBAG. Its contents are emptied practically to the very last drop – what remains is just a few micrometres thin: the packaging shell. More than a million vacuumBAGs fit into a standard waste container.

Hagleitner has banned NTA, EDTA and phosphates from all dosable products, instead incorporating substances which are perfectly harmless.

## Hygienic and environmentally friendly

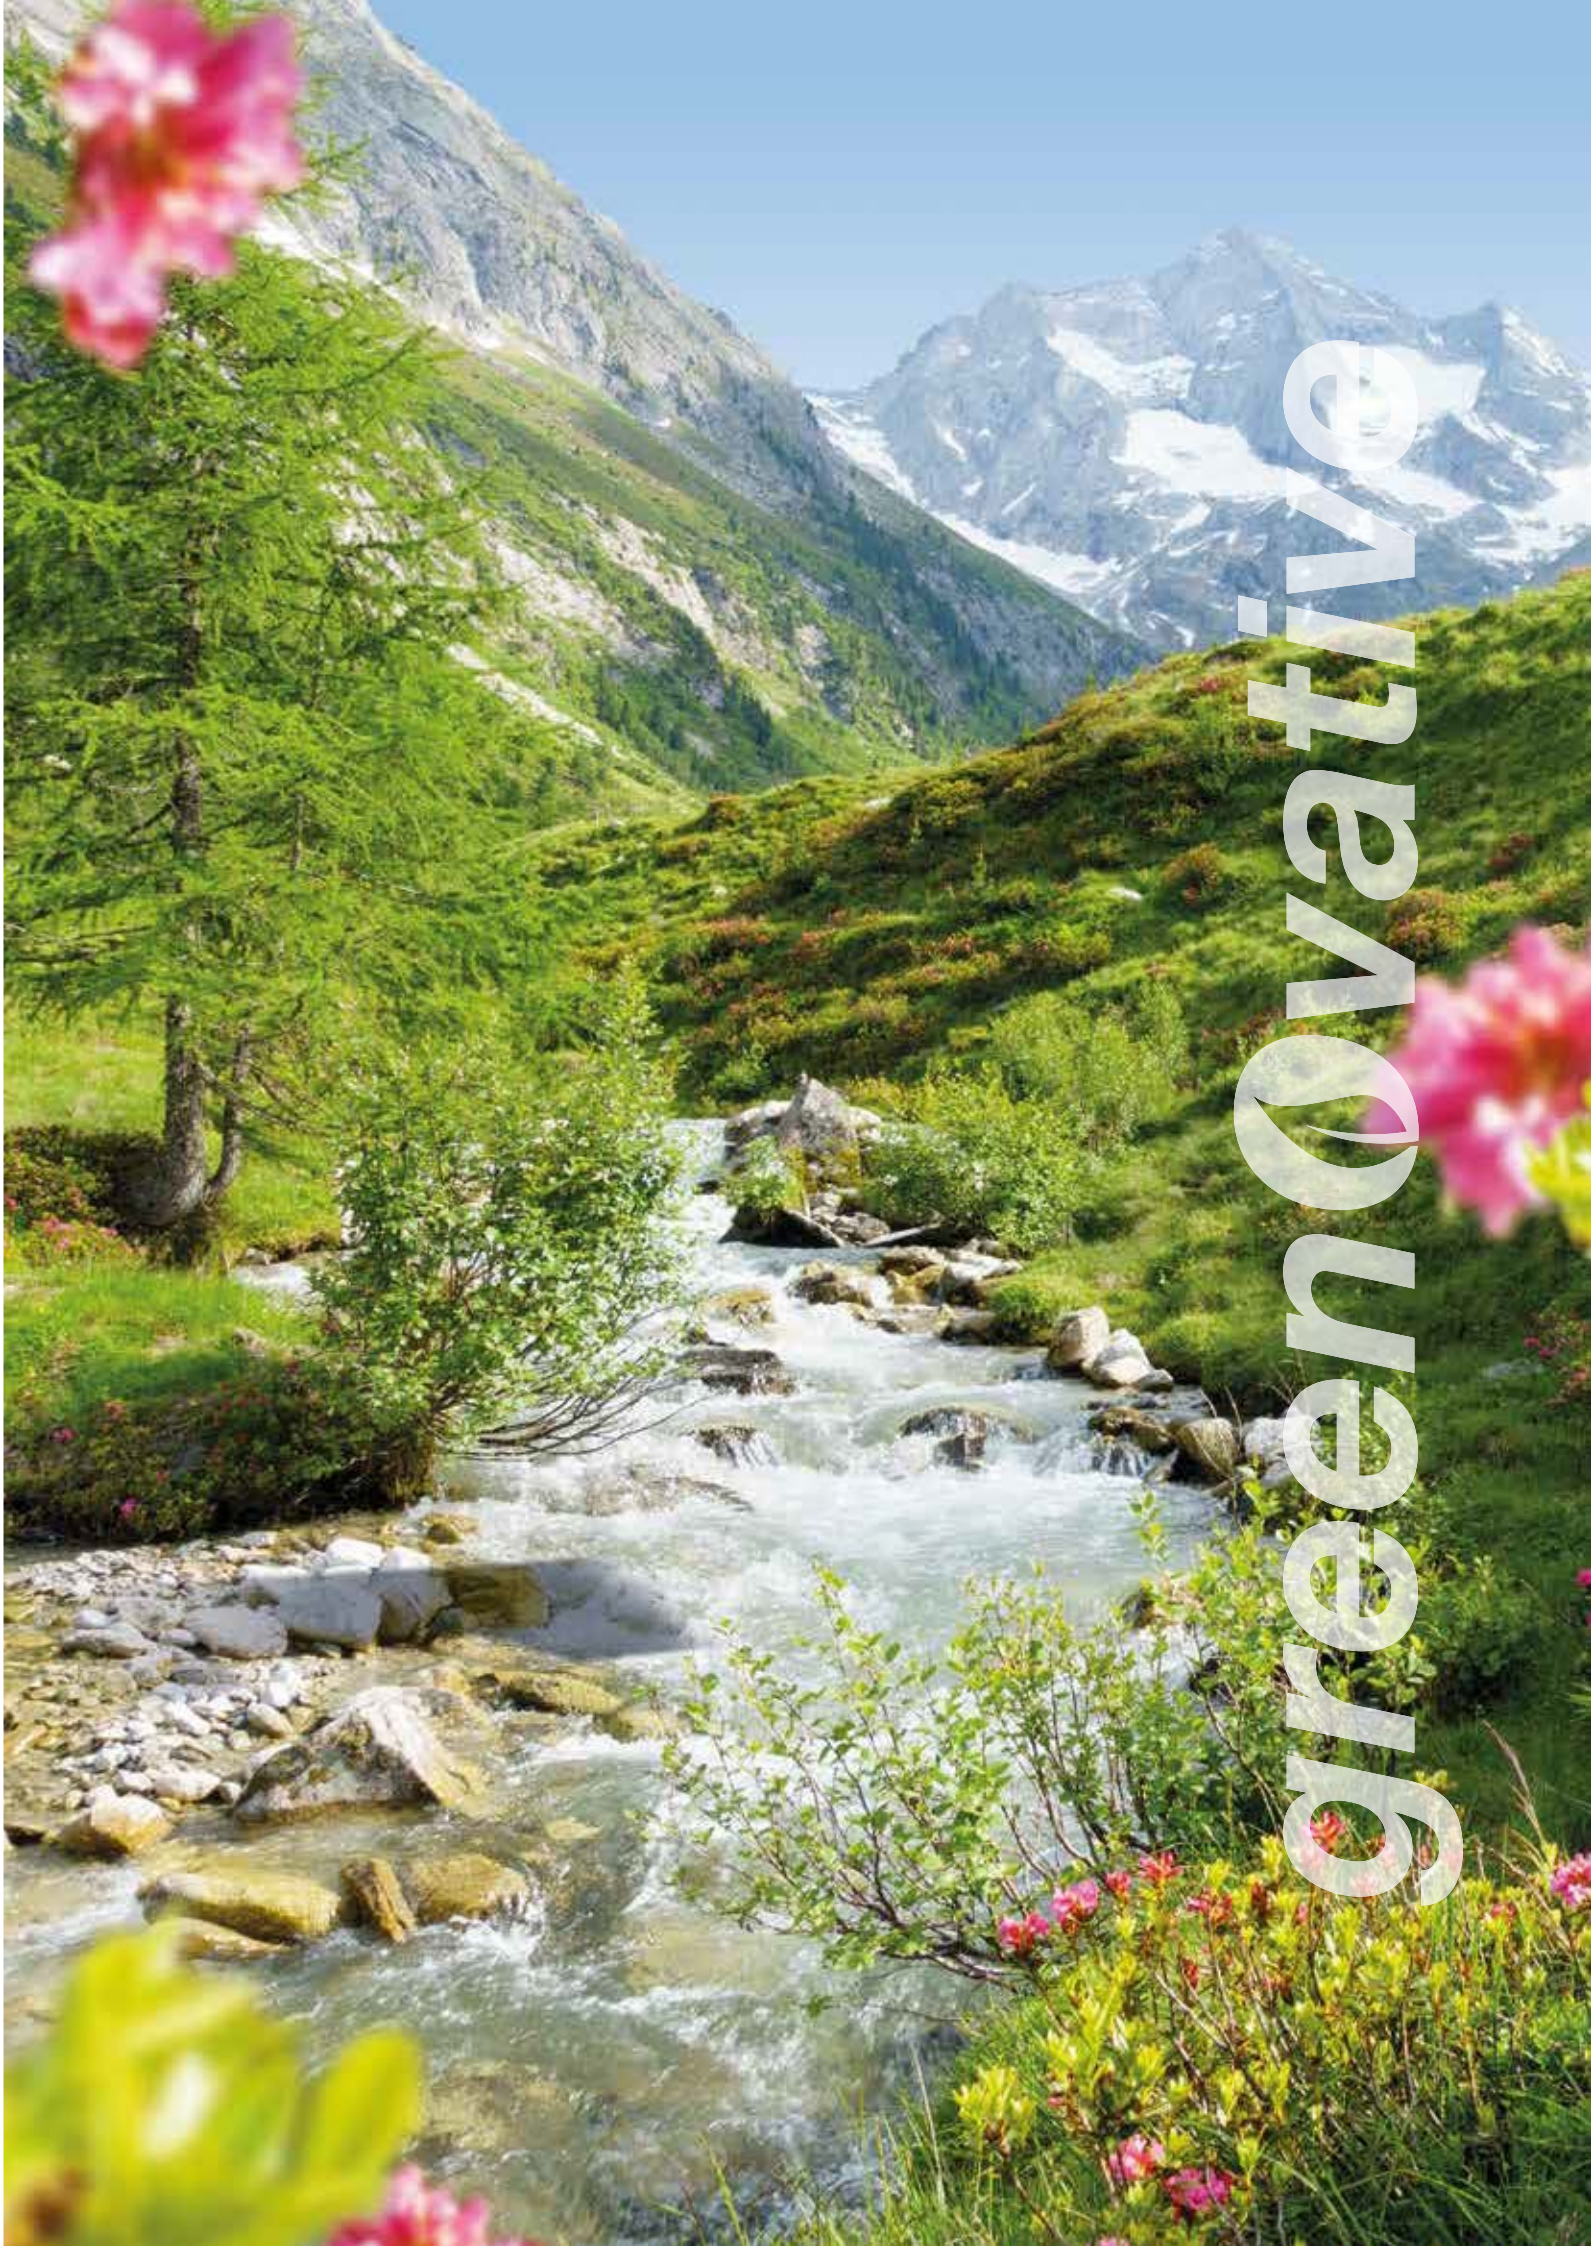

Hagleitner has invented an alternative for moist toilet paper: moistening toilet paper yourself is hygienic and protects the environment. Foam is used on conventional toilet paper; it contains no microplastics and can be flushed away without concern.

The FSC® quality seal is based on criteria that guarantee responsible forest management. So make sure you consciously look for FSC®-certified products.

<sup>1</sup> Applies to energyBOX M and L.

Das Zeichen für verantwortungsvolle Waldwirtschaft

## The claim to market leadership is yours

Just  
imagine ...

### Technology

You are five years ahead of the hygiene industry in your region.  
Because you have come a long way with technology, knowledge and expertise.

### Digitalisation

The future is here with you: dispensing and dosing systems work digitally.

### Efficiency

Data is proving to be the key to efficiency and sustainability.

### Brand message

You set the bar for professional hygiene in your region.  
You proclaim innovation.  
You proclaim quality.  
You proclaim service.  
You proclaim excellence.  
You proclaim stability.  
You represent a strong brand – with the claim to have a global impact.  
You represent digital 360-degree system solutions.  
You represent Hagleitner.  
You are our brand ambassador for the Hagleitner customer experience.

### Reliability

Your customers can rely on Hagleitner. You can rely on Hagleitner.

### Support

For Hagleitner provides you with personal support, just as you provide personal support to your customers. It's also about the transfer of technology, knowledge and expertise.

### Market leadership

It's about passion and a common goal: double-digit annual growth.

... You are  
market  
leader in  
your region.

# Academy

## Hygiene demands knowledge

**Half a century of hygiene experience is waiting to be shared – with you, too.**

At the company headquarters in Zell am See, Hagleitrner provides the expertise required for professional hygiene in all areas of application. In the in-house academy, recognised experts instruct courses on a wide range of hygiene topics: from the basics of hygiene to hygiene management in health care facilities to the legal options in the case of claims in facility cleaning and many other matters. There is a wide range of training on offer, aimed at employees, customers and partners alike.

*'Progress lives from the exchange of knowledge.'*  
Albert Einstein

Like an airship, the Academy sits enthroned on its pedestal (the hygiene and disinfection plant). Hagleitrner calls the complex the Terminal Building, from where people set out into new worlds of hygiene.

### Seven seminar rooms

- Maximum flexibility – a rail system in the ceiling allows the walls to be retracted as required; this means that up to 400 people can be seated in one room.
- All-round digital – interactive displays replace conventional blackboards and whiteboards; beamers and movable screens make for great presentations even in front of large audiences.

### Seven “experience & practice” rooms

- True to reality – each room is dedicated to one of Hagleitrner’s areas of activity: washroom, facility care, healthcare, housekeeping, kitchen, laundry, and industry.
- Standardised – the facility care practice room complies with Austrian standard ÖNORM D 2040. This enables Hagleitrner to offer on site the basic course for facility cleaners, the training to become a certified facility cleaning disinfectant and the master course for monument, façade and facility cleaners.

Academy

# The digital world of Hagleitner

## ... makes hygiene

**efficient:** a glance at the smartphone shows where action is needed; unnecessary service trips and refill replacement times are a thing of the past.

**sustainable:** inventory can be planned and calculated more accurately thanks to precise consumption monitoring; this reduces transport journeys and thus CO<sub>2</sub> emissions.

**resource-optimised:** innovative dosing technology allows water and cleaning agent to mix in exactly the right proportions, so neither one nor the other is consumed unnecessarily.

**reliable:** hygiene dispensers and dosing devices indicate in good time when the refill is running low. innovative reserve systems then provide enough time to change paper, soap and many other items. This

ensures that hygiene is always in reach.

## ... makes hygiene convenient:

**Hagleitner hygiene portal:** for managing and configuration of dispensers, ordering products, booking courses, and accessing knowledge – Hagleitner bundles digital tools online.

**HsM web portal:** for managing and evaluating device data online – planning hygiene sustainably and efficiently

**Device apps:** for adjusting dispensers and dosing devices to suit requirements

**scanME app:** scan code – view product information, retrieve safety data sheets and place orders.

## Networked disinfection and hygiene

### Digitalisation creates efficiency and sustainability

#### In the washroom

Digital dispenser data ensures 25% less service effort and 30% more customer satisfaction.

#### For buildings

Digital real-time information from the dosing device enables facility cleaning to be scheduled and cost-effective.

#### In the kitchen

Safe, clean dishes  
24/7/365 with an app.

#### For laundry

Supply up to four washing machines with one dosing system.

360°

Hagleitner's 360-degree claim: researching, developing and producing hygiene – for facility cleaning, laundry, the kitchen, the washroom and for disinfection in all areas.

# scanME app

It's as easy as anything to

- retrieve product information,
- download the safety data sheet.

Scan the barcode in the catalogue or the QR code on the product to have all the relevant information at your fingertips.

scanME app

# Hagleitner hygiene portal

Hagleitner bundles digital tools on this online platform.

In addition to articles on current hygiene topics and the FAQ, you can directly access the following:

- Hagleitner senseMANAGEMENT,
- the Hagleitner online shop,
- XIBU Designer<sup>1</sup> and
- the Hagleitner Academy website<sup>2</sup>.

<sup>1</sup> See page 23.

<sup>2</sup> See page 14.

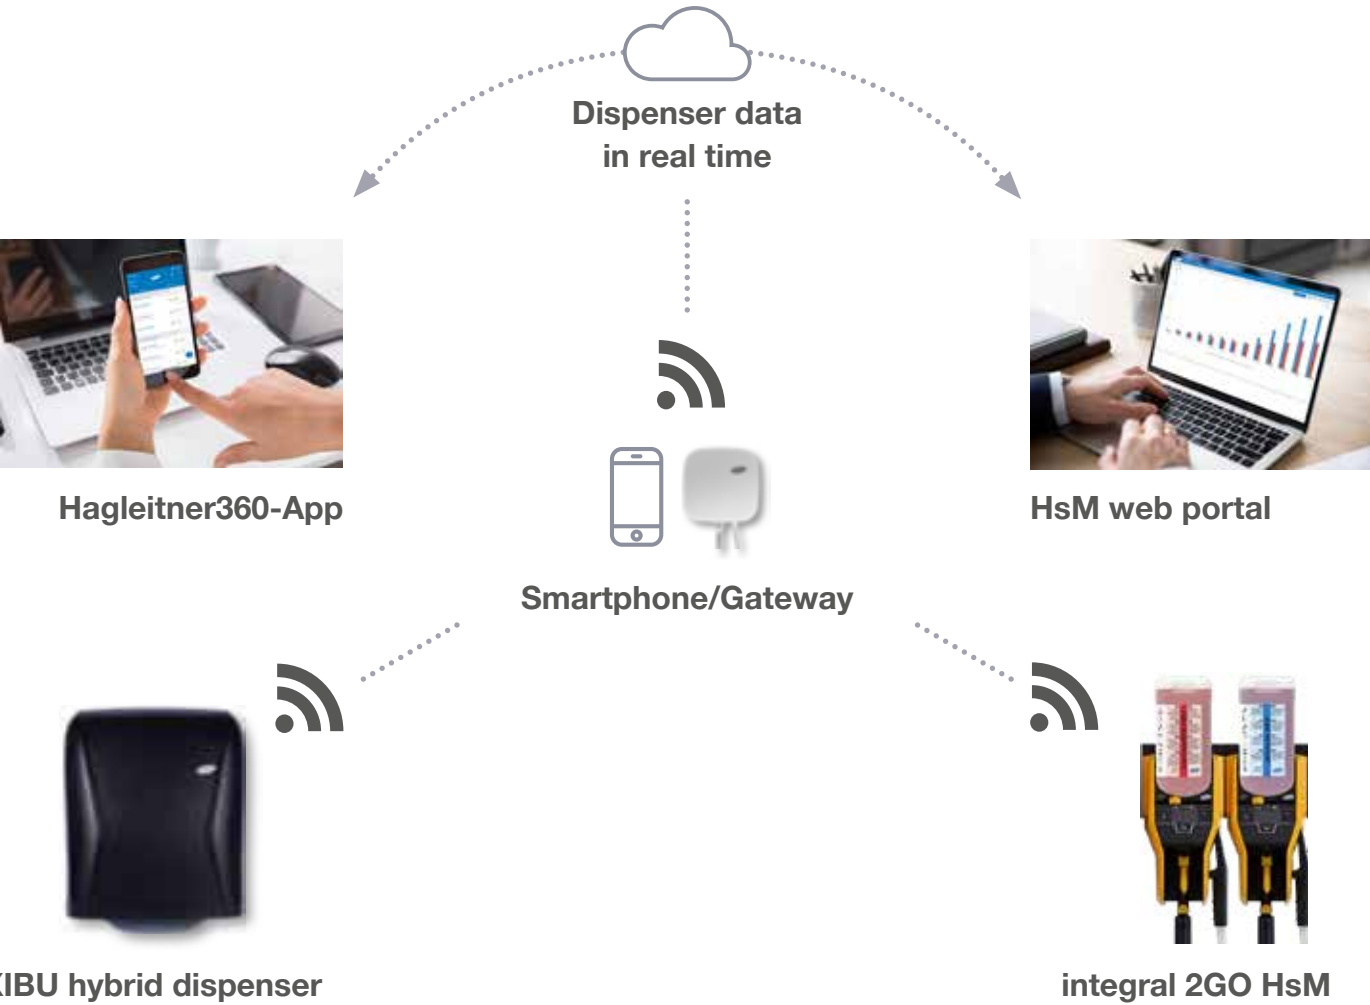

Hygiene portal

# Hagleitner senseMANAGEMENT

The digital tool for managing HsM device and hygiene data makes hygiene visible, and easy to plan and document – wherever you are.

All XIBU hybrid hygiene dispensers and the integral 2GO HsM dosing device transmit application data via Bluetooth to the smartphone or

Gateway (see page 26) as standard, from where it is transferred to a secure cloud. This data can be viewed in real time via the Hagleitner360 app on a smartphone and via the HsM web portal on a laptop or PC.

## Your benefits

### Reliable planning and calculation of product requirements and stock levels

HsM allows you to create individual consumption statistics: You can establish how many refills have been consumed over a freely definable period of time, for single as well as multiple devices.

### Efficient use of resources

The location, fill level, consumption and energy status of all networked devices are visible at a glance, instantly showing where action is required. This enables your staff to work systematically, saving unnecessary travel and set-up times.

### Hygiene is available at all times

Data transfer from the unit to your display is in real time, so you see immediately when the battery, cleaner, paper, soap or something else is running low. Innovative reserve systems then give you enough time to refill the devices.

## Environmental benefits

Transport distances and thus CO<sub>2</sub> emissions are automatically reduced, because you know exactly what products you need and when you need to refill them.

You can use rechargeable batteries as a power source, because the XIBU hybrid dispensers offer this energy option.

There is no more wasted paper or refills, as your dispensers have innovative reserve and residue recycling systems.

The radio icon indicates that this device is transmitting data.

## Washroom hygiene

In the washroom, one thing counts above all: paper, soap and the like should always be available. To ensure this, Hagleitner has developed

- a hybrid dispenser series,
- a digital tool for dispenser and hygiene data management and
- its own dispenser app.

XIBU hybrid dispensers not only provide

- toilet paper,
- paper towels,
- foam soap,
- cream soap and hand lotion,

- room scent,
- hand sanitiser,
- toilet seat sanitiser,
- toilet paper moistener and
- skin care products,

but also application data, as standard, on consumption, fill level, energy status and service requirements. The information can be viewed in real time on the smartphone, laptop and PC. The Hagleitner360 app allows individual dispenser settings to be made as required.

## The digital washroom

## Hagleitner360-App

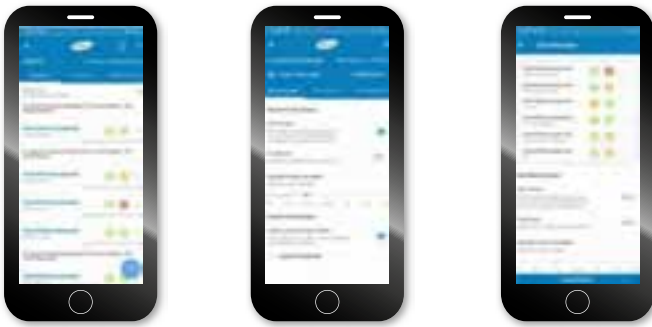

XIBU hybrid dispensers can do both: transmit & receive data.

### Transmitting data

One look at the smartphone is enough to view all dispenser data: Where is the refill running low? What about the rechargeable battery? The dispensers notify in a good time when there is a need for action. Innovative reserve systems then provide enough time to replace paper, soap, etc., so that hygiene is always guaranteed. In addition, work can be more focused: Unnecessary service trips and set-up times are a thing of the past.

### Receiving data

Should the dispenser dispense the towel paper quickly or slowly? Should the room scent be dispensed according to working hours or motion-controlled? Three millilitres of hand sanitiser or individually adapted to your needs? Dispenser settings can be made as needed via a smartphone.

Hagleitner360-App

# Operating mode – analog or hybrid

## analog

Paper and foam are dispensed mechanically.

- manual dispensing
- visual fill level indicator
- electric power-free operation
- dispenser front available in black and white

## hybrid

Touchless dispensing of foam, creams, disinfectant, paper – and data.

- Touchless dispensing
- information on the fill level, consumption and energy status digitally accessible
- choice of power supply via rechargeable battery, energyBOX or mains adapter
- make dispenser settings as required in the Hagieitner360 app
- dispenser front available in black and white

# XIBU hybrid invisible – touch-free and invisible

## installation behind mirrors and walls · Installation in (mirrored) cabinets

XIBU hybrid dispensers can also disappear behind mirrors, walls and in (mirrored) cabinets if required.

Two technical installation variants allow for individual solutions. (see page 40)

# XIBU Designer

Hygiene is not meant to impose itself, but rather be inviting – appealing, pleasing, welcoming. Hagieitner provides you with a unique tool for this purpose.

[www.xibudesigner.com](http://www.xibudesigner.com)

The dispenser front panel is available in two colours: white and black. The side panels of every XIBU dispenser can be adapted from a wide range, with over 1,000 designs to choose from.

For the side panels, 213 RAL colors are available in a matt normal lacquer; alternatively, there are over 800 designs available (water transfer printing) – from leopard print to walnut wood to green marble to camouflage; in fact, there is hardly a pattern that is not available.

At [www.xibudesigner.com](http://www.xibudesigner.com), dispensers can be configured with just a few mouse clicks.

### Select a design and view it directly in the sample washroom

Is your washroom decorated in light or dark tones? Is it in a hotel, a restaurant or a healthcare facility?

Previews help you to visualise your chosen dispenser look more easily in your own washroom.

The XIBU hybrid dispenser can draw power in three ways:

- by using the energybox,
- the rechargeable battery and
- the mains adapter.

The **energyBOX** made of recycled material bundles power output and supplies the dispenser with energy over an extended period of time. At the end of its service life, Hagleitner takes it back and recycles it in an environmentally friendly manner.

The mains adapter **powerPACK ADAPTER hybrid**, the surface-mounted power supply unit powerPACK ex and the flush-mounted power supply unit powerPACK in allow the dispenser to be connected to the available power supply.

Up to two **rechargePOWER hybrid** batteries can be recharged with the powerSTATION; the powerSTATION extension enables an expansion to up to eight battery charging units.

• The connection of the power supply unit to the dispenser must be made by an electrician.

24/7 real time data

Digital devices send application data on consumption, fill level and energy status to a secure cloud. If a device is connected to a Gateway, the data transfer takes place in real time. The information can be accessed with a

smartphone in the Hagleitner360 app and online in the HsM web portal with a tablet, laptop or PC. This means hygiene can be planned and documented.

HsM gatewayLAN

H x W x D: 9.5 x 9.5 x 3.8 cm

Art.-No. 4131400400

- router for data transfer
- delivers data around the clock from all digital devices within range
- straightforward integration into the existing LAN or WLAN network
- receives device data via BLE
- transmits received device data to the cloud
- configurable via the Hagleitner360 app
- includes power supply unit and LAN cable (cable length: 80 cm each)

HsM gatewaySIM

H x W x D: 28.5 x 12 x 2.5 cm

Art.-No. 4131400500

- router for data transfer
- delivers data around the clock from all digital dispensers and dosing devices within range
- can also be operated in SIM card mode without a network connection
- optional operation via LAN or WLAN network possible
- receives dispenser data via BLE
- transmits received dispenser data to the cloud
- includes power supply unit (cable length: 100 cm)
- SIM card not included (required type: micro SIM card)

One roll – four times more paper

There is room for four times more paper on a Hagleitner toilet paper roll than on its commercially available counterpart; this is due to its unique core: a thin plastic rod. Its high paper carrying capacity makes it particularly environmentally friendly – transport volumes and the associated CO<sub>2</sub> emissions are reduced. Its composition is also sustainable:

Recycled material instead of new plastic

Hagleitner not only manufactures the plastic rods for its toilet and towel rolls from recycled plastic, but also the energy boxes for its hybrid hygiene dispensers. So when the roll is used up or the lifetime of the energy box has expired, Hagleitner takes back both and the recycling cycle starts all over again.

95 percent less waste

The refills for disinfectants, soaps and lotions come from Hagleitner in the patented and award-winning vacuumBAG. This type of vacuum bag weighs 60 percent less than conventional refills. Its packaging shell is only a few micrometers thick and weighs only 21 grams. As the contents of the vacuumBAG empty 100%, the bag shrinks to about ten percent of its original volume. A standard waste container can hold over one million vacuumBAGs. As a result, up to 95 percent less waste is generated than with comparable products. In addition, the vacuumBAGs can be disposed of unmixed by type.

# XIBU toilet paper dispenser

## XIBU TISSUEPAPER hybrid

- toilet paper dispenser
- dual-roll system
- A single refill is equivalent to eight conventional rolls of toilet paper.
- second roll slides down automatically
- with unwind stopper for economical sheet removal
- sends operating data
- power supply either via energyBOX S or mains adapter (see page 24–25)
- lockable

## XIBU TISSUEPAPER analog

- Toilet paper dispenser
- dual-roll system
- One fill equals up to eight conventional rolls of toilet paper.
- second roll slides down automatically
- with unwind stopper for economical sheet removal
- lockable

- stand for room fragrance dispenser
- makes the dispenser mobile and flexible in its use

### XIBU AIRFRESH mobile white

H x W x D: 22.3 x 12.2 x 8.8 cm

Art.-No. 4111202361

### XIBU AIRFRESH mobile black

H x W x D: 22.3 x 12.2 x 8.8 cm

Art.-No. 4111202362

# XIBU waste bins

The XIBU series waste bins have a capacity of 45 l. The compact body is made of impact-resistant plastic. The waste slot is concealed, and there

is integrated storage space for a bin liner roll in the lid. The waste bins can stand on the floor or be mounted on the wall.

## XIBU PAPERBOX vacuum hybrid

- waste bin
- featuring vacuum technology – for 40 percent more waste volume; vacuum technology optionally operated via powerPACK ex, powerPACK in or with 6 D-type batteries
- transmits operating data via the fill level sensor LEVEL UNIT hybrid; the LEVEL UNIT hybrid is supplied with power via energyBOX S.

## XIBU PAPERBOX

- can be integrated into the digital washroom using the add hybrid for PAPERBOX option

### XIBU PAPERBOX vacuum hybrid white

H x W x D: 70 x 34 x 23.7 cm

Art.-No. 4110224350

### XIBU PAPERBOX vacuum hybrid black

Art.-No. 4110224362

### XIBU PAPERBOX white

H x W x D: 70 x 34 x 23.7 cm

Art.-No. 4110223361

### XIBU PAPERBOX black

H x W x D: 70 x 34 x 23.7 cm

Art.-No. 4110223362

## Refills

### garbageBAG XIBU 45 l

6 x 25 pieces

Art.-No. 4111101000

- bin liner with practical pull tape
- for XIBU PAPERBOX and XIBU PAPERBOX vacuum hybrid
- 45 l capacity
- 50 x 74 cm
- white/tear-resistant

## Option for XIBU PAPERBOX

### add hybrid for PAPERBOX

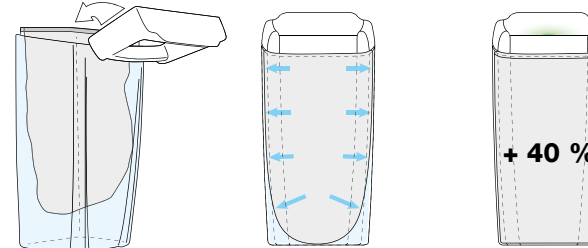

Art.-No. 4111210750

- Using the innovative LEVEL UNIT hybrid fill level sensor, operating data is sent to the Hagleitner360 app and the HsM.
- The LEVEL UNIT hybrid is supplied with power via the energyBOX S.

## How the vacuum technology functions

The vacuum technology sucks the binLINER against the inner wall, optimising the waste volume and creating 40% more filling volume.

# XIBU hand disinfectant dispensers

## Refills for XIBU MULTIFOLD

Haggleitner offers folded paper towels in six variants. Have we sparked your interest? Please get in touch with us.

### XIBU MULTIFOLD white

H x W x D: 39.5 x 33.6 x 14.8 cm

Art.-No. 4110223550

## Option for XIBU MULTIFOLD

### add hybrid for MULTIFOLD

Art.-No. 4111211050

- Using the innovative LEVEL UNIT hybrid fill level sensor, operating data is sent to the XIBU app and the HsM.
- The LEVEL UNIT hybrid is supplied with power via the energyBOX S.

Invisible dispenser installation

The dispenser itself remains hidden from view, it is invisible and yet there – just like the data it transmits. The dispenser provides digital details

about itself, informing about dispensing quantity, fill level, usage and energy status; with a Gateway, it even transmits 24 hours a day, 7 days a week and 365 days a year (see page 26).

Installation behind mirrors and walls

XIBU LIQUID vertical lift – for dispenser installation behind rigid fronts that cannot be opened.

The dispenser holder can be lowered; this makes it easy and safe to fill liquid dispensers.

Installation in (mirrored) cabinets

XIBU LIQUID variable adapter – for dispenser installation behind fronts that can be opened with a flap or door.

Installation behind mirrors and walls

XIBU LIQUID vertical lift

H × W × D: 32 × 11.4 × 9.9 cm Art.-No. 4111222500

- Dispenser holder
- lowerable
- for installing liquid dispensers behind rigid fronts
- rail system with safety hooks
- automatic locking in the working position
- suitable for XIBU FOAM hybrid (see page 30) and XIBU DISINFECT hybrid (see pages 34–35)
- 4,000 ml refills cannot be used with this dispenser holder (see XIBU LIQUID extension below).

Installation in (mirrored) cabinets

XIBU LIQUID/TOWEL rail

2 × 1 m Art.-No. 4111222600

- mounting rail
- can be precisely adapted to the installation width - for maximum flexibility
- for mounting dispenser holders

XIBU TOWEL adapter plate

H × W × D: 33 × 32 × 1 cm Art.-No. 4111222700

- mounting plate for the towel dispenser XIBU towel hybrid (see page 29)
- attached to mounting rail

XIBU LIQUID variable adapter

H × W × D: 33.1 × 14.6 × 7.3 cm Art.-No. 4111222400

- Dispenser holder
- stainless steel
- for liquid dispensers XIBU FOAM hybrid and XIBU DISINFECT hybrid
- installation depth individually adjustable (ideal for depth adjustment to the towel dispenser XIBU TOWEL hybrid)
- attached to mounting rail

XIBU LIQUID magnet holder

H × W × D: 9.5 × 3.7 × 2 cm Art.-No. 4111222300

- Magnetic adapter for liquid dispenser
- for operation without dispenser lid
- enables easy and quick servicing of built-in dispensers

STICKER SOAP invisible

1 piece Art.-No. 4111223300

STICKER PAPER invisible

- invigorating scent of orange blossom

septLIQUID SENSITIVE

2 × 4000 ml Art.-No. 4110711143

- hand disinfectant
- alcoholic, ready to use
- A more detailed product description can be found on page 99.

# XIBU XL – dispenser for workshops and industry

Oil, grease, paint, varnish, adhesive, dust and soot are difficult to wash off the hands. Commercially available soap is not enough; what is needed is a friction body. Instead of microplastics, Hagleitner uses natural substances: ground corncobs and olive stones.

Besides, hand hygiene must also be practical and convenient in the workshop; the bucket with the hand washing paste is not only unwieldy, but also unhygienic. That's why Hagleitner's abrasive soaps come out of a touch-free dispenser; it can be mounted on the wall above the washbasin.

## Skin protection data

Skin diseases account for the majority of occupational illnesses. Application data helps to identify weak spots and to promote skin protection in the workplace.

XIBU industrial dispensers

XIBU XL FLUID hybrid

- industrial dispenser for skin protection and hand hygiene
- touchless dispensing
- reserve tank
- simple and reliable filling thanks to innovative vacuumBAG sliding-guide
- robust and durable design
- splash water-proof (IP54, only in combination with rechargePOWER hybrid)
- versatile usage
- sends operating data
- adjustable dispensing volume via the Hagleitner360-App
- power supply either via energyBOX M, rechargeable battery or mains adapter (see page 24–25)
- electronic fill level indicator – flashing LED
- lockable

XIBU XL FLUID hybrid white

H x W x D: 29.2 x 15.4 x 12.9 cm

Art.-No. 4110302350

XIBU XL FLUID hybrid black

H x W x D: 29.2 x 15.4 x 12.9 cm

Art.-No. 4110302367

XIBU XL FLUID analog

- industrial dispenser for skin protection and hand hygiene
- manual dispensing
- simple and reliable filling thanks to innovative vacuumBAG sliding-guide
- robust and durable design (incl. pushbutton)
- splash water-proof
- versatile usage
- dispensing volume adjustable with XIBU key
- lockable

XIBU XL FLUID analog white

H x W x D: 32.9 x 15.4 x 13.7 cm

Art.-No. 4110302450

XIBU XL FLUID analog black

H x W x D: 32.9 x 15.4 x 13.7 cm

Art.-No. 4110302467

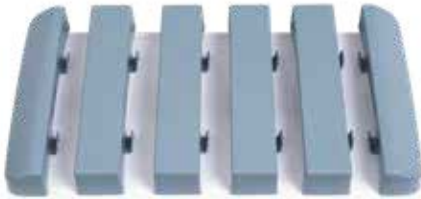

Option

XL SPACER KIT

Art.-No. 4111222100

- connecting parts for row mounting of up to five XIBU XL FLUID dispensers (including cable duct for using the Y combiCABLE)

handHYGIENE KIT

Art.-No. 4120101800

- mobile hand hygiene
- ideal for on the move, e.g. on construction sites, in painting shops, workshops, locksmith's shops, metalworking shops
- products for skincare cleaning and disinfection
- including skin protection plan with instructions for use

XIBU industrial dispensers

Refills

handPROTECT PURE

6 x 750 ml

Art.-No. 4110710005

30 x 50 ml

Art.-No. 4120102909

- skin protection lotion
- free of silicone, soap, colours, perfume and parabens
- fast-absorbing, excellent skincare properties
- leaves an effective, highly water-resistant and long-lasting protective film on the skin which also protects hands when gloves are worn
- pH-neutral, dermatologically tested
- prevents skin irritation and cracked hands

abrasivUNIVERSAL

5 x 1050 g

Art.-No. 4110708939

20 x 150 g

Art.-No. 4120102612

- abrasive soap
- medium-sized coarse cleaner with natural abrasives
- removes oil, grease, soot, brake and graphite dust
- free of silicone, parabens and soap
- pH-neutral, dermatologically tested
- formula free of microplastics
- subtle fruity scent

creamSOAP PURE

- produces a soft foam
- ideal for the food sector and hygiene sluices

## flüssigSEIFE

10 kg

Art.-No. 4120100211

- hand soap
- liquid, produces a soft foam
- prevents the skin from drying out
- leaves a pleasant scent of peach blossom

# Kitchen hygiene

Preparing good food in a hygienically clean environment – that's what the kitchen is all about. Work is stressful, so this is where practical hygiene plays an especially important role.

This can be achieved with system solutions; they are designed to work together, ideally as if they were running by themselves.

## Digitalisation creates efficiency and sustainability

Crystal clear facts: how many dishes are washed? How much detergent and rinse aid are used? How much water flows? How much electricity is consumed?

Take stock: care for a PDF in your inbox? With the current values from the scullery?

The right tip: All relevant information is immediately at hand on your smartphone.

Look ahead: compare one time period to another. The comparison pays off – and helps you design the future efficiently.

## The digital scullery

### Dosing system for highly concentrated cleaners and rinse aids

Highly concentrated detergent for dishes and glasses, highly concentrated rinse aid, a dosing system: imagine your scullery running itself – 24 hours a day with sparkling results, 7 days a week with no downtime, 365 days a year.

#### The dosing device

- effective: four kilograms of high concentrate clean up to 1,500 baskets.
- flexible: suitable for both wall and under counter installation
- simple: just one cleaner for dishes and glasses.
- compact: less weight, less effort – more space, more room to move
- innovative: detergent and water are automatically mixed in the correct proportions.
- never empty thanks to reserve tank
- safe: thanks to RFID technology, product mix-ups are out of the question.

#### The app

- acts before something happens – for example, when detergent and salt run low.
- notifies you when maintenance is due.
- shows how many dishes and glasses have been washed, how much detergent and rinse aid, and water and electricity have been used.
- has a washing-up glossary and guide with practical tips.
- helps in the event of malfunctions, with the 3-7 VIP service: if the fault originates from the dispenser, the app finds the cause within three minutes; if not, it shows the right contact person to fix the problem after seven minutes.

integral 4PLUS

integral 4PLUS-App

integral 4PLUS

is an app-controlled dosing device and is suitable for hood-type, pot, under counter and glass washers. It doses the highly concentrated liquid ecosol POWER detergent and ecosol BRITE rinse aids fully automatically.

SET integral 4PLUS POWER

H x W x D: 40 x 17.8 x 22.2 cm Art.-No. 4220901570

- The set includes:
- integral 4PLUS: fully automatic dosing device
  - integral 4PLUS FLOWMETER: Water meter for dosing in proportion to volume
  - integral 4PLUS powerPACK ex: mains plug for the power supply
  - integral 4PLUS PUMP POWER: pump for detergent
  - integral 4START POWER: installation set for detergents – comprises hose, connector and tank inlet

SET integral 4PLUS POWER WALL

H x W x D: 46.5 x 17.8 x 22.2 cm Art.-No. 4220901470

- The set includes:
- integral 4PLUS: fully automatic dosing device
  - integral 4WALL: 3-part accessories for wall mounting.
  - integral 4PLUS FLOWMETER: Water meter for dosing in proportion to volume
  - integral 4PLUS powerPACK ex: mains plug for the power supply
  - integral 4PLUS PUMP POWER: pump for detergent
  - integral 4START POWER: installation set for detergents – comprises hose, connector and tank inlet

SET integral 4PLUS BRITE

H x W x D: 40 x 17.8 x 22.2 cm Art.-No. 4220901770

- The set includes:
- integral 4PLUS: fully automatic dosing device
  - integral 4PLUS PUMP BRITE: pump for rinse aid
  - integral 4START BRITE: installation set for rinse aid – comprises hose, connector and check valve

SET integral 4PLUS BRITE WALL

H x W x D: 46.5 x 17.8 x 22.2 cm Art.-No. 4220901670

- The set includes:
- integral 4PLUS: fully automatic dosing device
  - integral 4WALL: 3-part accessories for wall mounting.
  - integral 4PLUS PUMP BRITE: pump for rinse aid
  - integral 4START BRITE: installation set for rinse aid – comprises hose, connector and check valve

Accessories for integral 4PLUS

integral 4PLUS DISPLAY

Art.-No. 4220901170

- to indicate the status for under counter installation
- data is transmitted wirelessly
- the display visualises up to four integral 4PLUS dosing devices on one dishwasher

Replacement parts for integral 4PLUS

integral 4PLUS PUMP POWER

Art.-No. 4220900370

- pump for dosing highly concentrated liquid detergents
- service interval for pump replacement is displayed in the app based on actual consumption

integral 4PLUS PUMP BRITE

Art.-No. 4220900470

- pump for dosing highly concentrated liquid rinse aids
- service interval for pump replacement is displayed in the app based on actual consumption

integral 4PLUS FLOWMETER

Art.-No. 4220900270

- flow meter for measuring water quantity
- service interval for pump replacement is displayed in the app based on actual consumption

(All dispenser replacement parts are included in the maintenance contract and are proactively replaced.)

integral 4PRO

is a computer-controlled dosing device and is suitable for conveyor belt, hood-type and pot washers (in combination with temperature monitoring). It doses the highly concentrated liquid ecosol POWER detergent.

SET integral 4PRO

H x W x D: 51 x 23.5 x 22 cm Art.-No. 4220902270

- The set includes:
- integral 4PRO: computer-controlled dosing device
  - integral COMPACT DISPLAY: displays the current status and key messages of dosing devices
  - integral COMPACT CONNECTOR: for subsequent processing of machine signals (connection box)
  - carbon electrode: for dosing by means of conductivity measurement

integral COMPACT

is a computer-controlled dosing device and is suitable for conveyor belt, hood-type and pot washers (in combination with temperature monitoring and the disinfecting detergent ecosol CLEAN DES). It doses the solid cleaners from the ecosol CLEAN line.

SET integral COMPACT

H x W x D: 56.5 x 23.5 x 22 cm Art.-No. 4220902170

- The set includes:
- integral COMPACT: computer-controlled dosing device
  - integral COMPACT DISPLAY: displays the current status and key messages of dosing devices
  - integral COMPACT CONNECTOR: for subsequent processing of machine signals (connection box)
  - carbon electrode: for dosing by means of conductivity measurement

integral FLUID

is a computer-controlled dosing device and must always be used in combination with the integral 4PRO or integral COMPACT dosing device. It doses the ecosol BRITE rinse aids and the additional products for integral FLUID.

integral FLUID

H x W x D: 51 x 23.5 x 22 cm Art.-No. 4700203170

- computer-controlled dosing device

integral 4CD

Central dosing system for commercial kitchens; can supply up to four machines with detergent and rinse aid.

integral 4CD

Art.-No. 4220903100

- central dosing system for commercial kitchens

Replacement parts for integral 4PRO and integral FLUID

integral 4PRO PUMP POWER

Art.-No. 4220902870

- pump for dosing highly concentrated liquid detergents

integral FLUID PUMP BRITE

Art.-No. 4700200200

- pump for dosing highly concentrated liquid rinse aids

(All dispenser replacement parts are included in the maintenance contract and are proactively replaced.)

Option

Temperature monitoring

Art.-No. 4910500400

- washing and rinsing temperature monitoring for complete temperature recording according to HACCP by means of an inductive conductance probe; access to Hagleitner COMMUNICATION light software included

ecosol detergent for integral dosing systems

for integral 4PLUS and integral 4PRO

**ecosol POWER**

4 × 4 kg

Art.-No. 4220101119

- detergent for dishes and glasses
- liquid, highly concentrated
- highly economical
- for water hardnesses from 0 to 20 °dH.
- powerful and effective against dirt for sparkling results

**ecosol POWER ALU**

4 × 4 kg

Art.-No. 4220101319

- aluminium detergent
- liquid, highly concentrated
- highly effective for removing stubborn dirt from pots, pans or baking trays
- with extra aluminium and non-ferrous metal protection
- also suitable for high water hardnesses

**ecosol POWER OSMO GL**

2 × 3.5 kg

Art.-No. 4220101219

- cleaning agent especially for glasses in osmosis water
- liquid, highly concentrated
- powerful and effective against dirt for sparkling results

for integral COMPACT

**ecosol CLEAN**

4 × 4 kg

Art.-No. 4220100119

- dishwashing detergent
- highly concentrated, solid
- highly economical
- for water hardnesses up to 15 °dH
- For higher water hardnesses, we recommend the additional use of ecosol LC.

**ecosol CLEAN WS**

4 × 4 kg

Art.-No. 4220100519

- dishwashing detergent
- highly concentrated, solid
- especially powerful and effective
- for water hardnesses up to 5 °dH.
- delays starch build-up in the long term and makes thorough cleaning necessary less often

**ecosol CLEAN DES**

4 × 4 kg

Art.-No. 4220101019

- disinfectant dishwashing detergent
- highly concentrated, solid
- A more detailed product description can be found on page 98.

**ecosol CLEAN ALU**

4 × 3.8 kg

Art.-No. 4220100619

- dishwashing detergent
- highly concentrated, solid
- highly effective for removing stubborn dirt from pots, pans or baking trays
- with extra aluminium and non-ferrous metal protection
- also suitable for high water hardnesses

ecosol rinse aids for integral dosing systems

for integral 4PLUS and integral FLUID

**ecosol BRITE N**

2 × 2.5 l

Art.-No. 4220200319

- rinse aid for dishes and glasses
- concentrated, neutral
- for water hardnesses up to 15 °dH

**ecosol BRITE S**

2 × 2.5 l

Art.-No. 4220200419

- rinse aid for dishes and glasses
- concentrated, acidic
- for water hardnesses from to 15 °dH

ecosol additional products for integral dosing systems

for integral FLUID

**ecosol LC**

3.1 kg

Art.-No. 4220300219

- water softener
- liquid, concentrated
- complexes the water hardening ions to prevent the build-up of limescale
- protects machine parts extending the service life of the machine
- can only be used in combination with one of the ecosol CLEAN detergents

**ecosol OSMO PLUS**

2.5 l

Art.-No. 4220300319

- additive for enhancing rinsing results
- for use in flight-type and basket conveyor dishwashers with osmosis systems or full softening or desalination systems
- protects the machine from corrosion
- protects the machine and machine parts

ecosol glass and dishwashing detergent

**ecosol PLUS**

13 kg	Art.-No. 4210300111
33 kg	Art.-No. 4210300813
80 kg	Art.-No. 4210300115

- detergent for commercial glass and dishwashing machines
- liquid
- highly effective against problematic stains such as caffeine, starch, etc.
- for water hardnesses up to 25 °dH
- When ecosol PLUS is used, the wash liquor needs to be changed rarely.

**ecosol R**

12 kg	Art.-No. 4210300911
30 kg	Art.-No. 4210300213
75 kg	Art.-No. 4210300215

- detergent for commercial dishwashers
- liquid
- highly effective against starch residues and heavy grime
- for water hardnesses up to 10 °dH
- ecosol ALU is recommended for tableware made of aluminium and other metals.

**ecosol ALU**

30 kg	Art.-No. 4210300313
-------	---------------------

- detergent for industrial pot-washing machines
- liquid
- highly effective for removing stubborn dirt from pots, pans, trays and mixers, etc.
- with extra aluminium and non-ferrous metal protection, thus optimally suited for cleaning baking utensils in bakeries, cake shops and nursing homes
- can also be used with very high water hardness (up to 25 °dH) without calcifying the machine

**ecosol OSMO**

10 kg	Art.-No. 4210301011
-------	---------------------

- additive for enhancing rinsing results
- for use in flight-type and basket conveyor dishwashers with osmosis systems or full softening or desalination systems
- protects the machine from corrosion
- protects the machine and machine parts

ecosol glass detergent

**ecosol GLASS**

6 × 1 kg	Art.-No. 4210500508
12 kg	Art.-No. 4210500611

- detergent for commercial glass washers
- liquid
- for machine and manual use
- highly effective against stubborn stains such as lipstick or theine
- gives all dishwasher-safe glasses a sparkling shine
- protects decorative elements and materials
- for water hardnesses up to 15 °dH

**ecosol OSMO GL**

11 kg	Art.-No. 4210500711
-------	---------------------

- detergent for commercial glass washers with osmosis system
- liquid
- for machine use
- highly effective against all grime, leaving a sparkling shine
- particularly gentle on materials and decorative elements

ecosol rinse aids

**ecosol NEUTRAL**

6 × 1 kg	Art.-No. 4210600108
10 kg	Art.-No. 4210600111
25 kg	Art.-No. 4210600113
60 kg	Art.-No. 4210600115

- rinse aid for glass and dishwashing machines
- prevents water stains and guarantees an outstanding deep-shine effect
- non-foaming
- for water hardnesses up to 15 °dH
- ecosol CIT is recommended for higher water hardness.

**ecosol CIT**

10 kg	Art.-No. 4210600211
25 kg	Art.-No. 4210600213
60 kg	Art.-No. 4210600215

- rinse aid for glass and dishwashing machines
- prevents water stains and guarantees an outstanding deep-shine effect
- non-foaming
- for water hardnesses from to 15 °dH
- ecosol NEUTRAL is recommended for lower water hardness

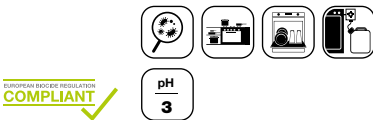

**ecosol SHINE GL**

10 kg	Art.-No. 4210600511
-------	---------------------

- rinse aid for glass washers with osmosis system
- ensures rapid coverage and thus fast drying of the washed items
- prevents stains caused by residues, etc.
- no excessive foaming for a guaranteed deep-gloss effect

ecosol disinfectant

**ecosol ECO DES**

10 kg	Art.-No. 4210301111
30 kg	Art.-No. 4210301113
65 kg	Art.-No. 4210301115

- disinfectant dishwashing detergent
- liquid for commercial dishwashers
- A more detailed product description can be found on page 98.

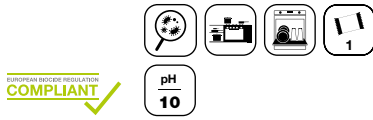

ecosol Powder

**ecosol POWDER**

15 kg	Art.-No. 4210400438
-------	---------------------

- detergent for all dish and glass washers
- phosphate-free, highly concentrated powder
- highly effective against stubborn dirt
- also suitable as immersion detergent for the thorough cleaning of dishes with built-up deposits such as coffee and tea stains
- for water hardnesses up to 25 °dH

**ecosol DES TABS**

2 × 70 tabs	Art.-No. 4210400500
-------------	---------------------

- disinfecting dishwasher tablets
- for domestic dishwashers
- A more detailed product description can be found on page 98.

# ecosol maintenance products

**ecosol INTENSE POWDER**  
6 x 1 kg

Art.-No. 4210200722

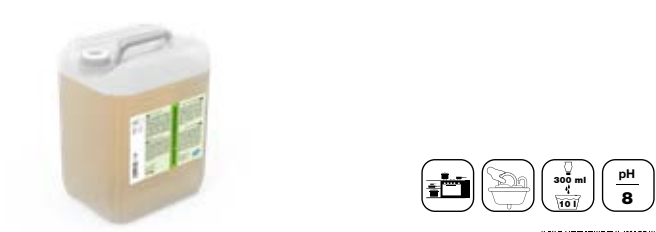

- basic cleaner for machine starch removal
- powder, highly effective
- for the removal of burned-in starch coatings
- dishes with starch deposits regain their shine
- only suitable for alkali-resistant dishes (not for glasses, cutlery and aluminium)
- To prevent starch residues permanently, the product can be used as a preventive basic cleaner.

**ecosol REGENERIERSALZ**  
7.5 kg

Art.-No. 4210200532

- special salt
- for reconditioning softening systems
- secures durable functionality of the dish and glass washers and coffee machines
- dissolves without residue

**ecosol TAUCHREINIGER**  
10 kg

Art.-No. 4210200211

- immersion detergent
- liquid, rapid-action
- for the thorough cleaning of dishes and cutlery
- highly effective against starch and protein deposits
- the dishes regain a new, shiny appearance
- non-irritating
- in comparison to powder products, it represents no danger through inhalation of dust particles

**ecosol REGENERIERSALZ TABS**  
25 kg

Art.-No. 4210200431

- special salt in pad form
- for reconditioning softening systems
- secures durable functionality of the dish and glass washers and coffee machines
- dissolves without residue

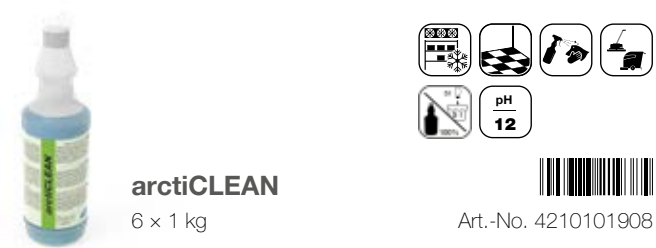

# Cleaning and care products for the kitchen

**grillBLITZ**  
6 x 1 kg

Art.-No. 4210100608

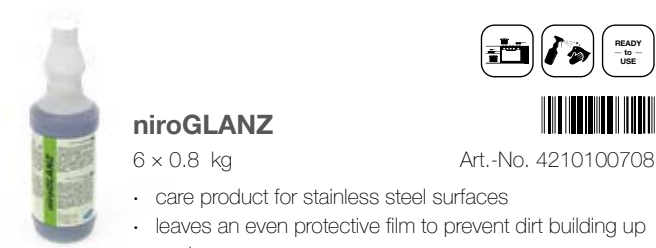

- grill cleaner
- highly effective – removes crusty, baked-on grill, bake and roasting residues from grill plates, ovens and hot plates without vigorous scrubbing
- easy to use and causes no respiratory irritation
- not for use on aluminium

**arctiCLEAN**  
6 x 1 kg

Art.-No. 4210101908

- freezer cleaner
- liquid, powerful
- effortlessly removes dirt from frozen surfaces and floors
- suitable for manual and machine application

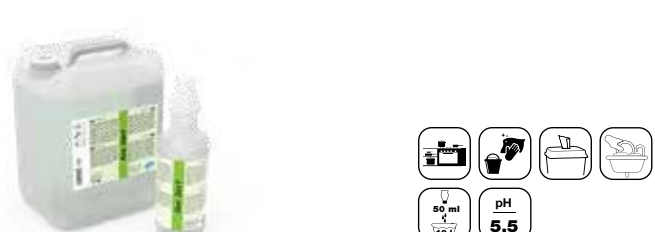

**niroGLANZ**  
6 x 0.8 kg

Art.-No. 4210100708

- care product for stainless steel surfaces
- leaves an even protective film to prevent dirt building up again
- surfaces preserve a glossy, well-maintained look
- For deep pore cleaning of stainless steel surfaces, we recommend: metallGLANZ (see page 78).

# Cleaning and care products for the kitchen

**fox 3in1**  
6 x 1 kg  
10 kg

Art.-No. 4210101208  
Art.-No. 4210101211

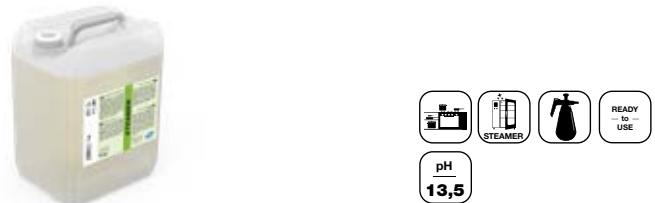

- detergent for cleaning dishes by hand
- liquid, powerful, odour-neutralising
- for the manual cleaning of dishes and glasses and for the cleaning of kitchen surfaces before disinfection
- prevents the spread of odours in the entire sink area
- gentle on the skin thanks to aloe vera care extracts
- subtle scent of apricots

**active ECO**  
6 x 1 kg\*\*  
10 kg

Art.-No. 4420100208  
Art.-No. 4420100211

- fat solvent
- all-purpose – for working surfaces, floors, ceilings, walls, steam extraction hoods, discharge grids, microwaves, etc.
- highly effective against grease, protein and dirt residues, even in hard-to-reach places
- removes baked-on dirt on grill plates, in combination steamers and in ovens
- do not apply to aluminium (for that, we recommend allround ECO and neutral ECO)

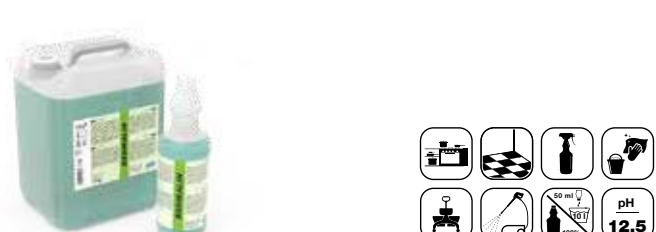

**STEAMER**  
10 kg

Art.-No. 4210100411

- cleaner for convection ovens, cooking and smoking appliances
- liquid, for manual use
- removes dirt and incrustations on its own
- odourless, gentle on materials and pleasant to use as no irritating vapours produced
- optimally used with the press-pumpBOTTLE

\* Purchase 6 x 1 kg – get one foamGUN free of charge!  
\*\* Purchase 6 x 1 kg – get one sprayGUN free of charge!

**RADIKALIN**  
6 x 1 kg\*  
10 kg

Art.-No. 4210100208  
Art.-No. 4210100211

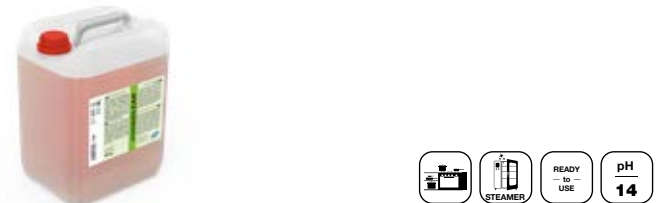

- degreaser
- liquid, highly concentrated
- easily removes greasy dirt from all washable surfaces and objects such as floors and cooker hoods
- non-foaming
- also suitable for machine application (e.g. high-pressure unit)
- not for use on aluminium

**bellaVIT**  
6 x 1 kg  
10 kg

Art.-No. 4210100308  
Art.-No. 4210100311

- detergent with great scrubbing power
- viscous
- highly effective against burned-in, stubborn dirt on hard surfaces
- with a subtle orange scent
- optimally used with dishwashingSPONGE GREEN

**combiCLEAN**  
10 kg

Art.-No. 4210100511

- detergent for thermal cooking equipment with an automatic cleaning program
- liquid
- highly effective against burned-in food remnants without attacking surfaces
- prevents limescale deposits in the cooking chamber; cleaning in accordance with HACCP – for the highest food quality and to preserve the value of the cooking appliance
- To rinse the cooking appliance, we recommend ecosol NEUTRAL.
- not for use on aluminium

# Laundry hygiene

Textiles must be washed gently, but at the same time thoroughly and, if necessary, disinfected. On the one hand, as little water and energy as possible should be used, and on the other hand, the cleanest possible detergents – for the sake of the environment.

All Haglaitner laundry hygiene products are free of microplastics; they are

based on high-quality, high-performance and sustainable raw materials.

Haglaitner offers two systems for laundry:

- for automatic dosing – havon PROFESSIONAL
- for manual dosing – havon MANUAL

## havon PROFESSIONAL – automated detergent dosing

Eight detergent building blocks can be combined modularly with each other as requirements dictate

### havon V8

25 kg

Art.-No. 4310100113

- detergent boosters
- liquid, highly concentrated
- suitable as a pre-wash detergent in combination with other detergents
- excellent for cleaning grimy kitchen wear and work clothes contaminated with mineral oil
- for washing temperatures: 30–70 °C

### havon B1

25 kg

Art.-No. 4310100813

60 kg

Art.-No. 4310100815

- detergent for coloured textiles
- liquid, with a pleasant fragrance
- optimally suited for the cleaning and care of dyed cotton, mixed fabrics and delicates (table linen, bed linen and towelling)
- not suitable for wool and silk
- excellent at removing grease and dirt stains
- preserves colours by means of added colour care agents
- innovative ingredients help to reduce re-soiling
- free from bleaching agents and optical brighteners
- for washing temperatures: 30–95 °C

### havon U9 PLUS

25 kg

Art.-No. 4310100913

60 kg

Art.-No. 4310100915

- basic detergent for the pre-wash and main wash
- liquid, concentrated
- optimal for the cleaning and care of kitchen and health spa laundry
- for sparkling white and fresh-smelling laundry
- contains optical brighteners and enzymes
- excellent at removing grease and dirt from cotton, blended and polyester fabrics
- innovative ingredients help to reduce re-soiling
- for washing temperatures: 30–95 °C

### havon A3

32 kg

Art.-No. 4310101013

75 kg

Art.-No. 4310101015

- detergent boosters
- liquid, alkaline
- enhances the cleaning performance
- highly effective against protein as well as grease and oily grime

### havon E4

30 kg

Art.-No. 4310100513

65 kg

Art.-No. 4310100515

- stain remover
- liquid, oxygen-based
- highly effective against all bleachable stains (e.g. red wine, goulash, fruit and vegetables)
- prevents greying

### havon K5

27 kg

Art.-No. 4310101413

64 kg

Art.-No. 4310101115

- water softener
- liquid
- prevents limescale deposits on the laundry and in the machine
- preserves the brilliant white appearance of the laundry

havon T7

27 kg  
64 kg

- disinfectant laundry bleach
- liquid for commercial washing machines
- A more detailed product description can be found on page 98.

Art.-No. 4310101613  
Art.-No. 4310101615

havon F12

25 kg

- neutralising agent for textiles and rinsing water
- Acidifying textiles in the last washing cycle prevents laundry from greying and yellowing (generally caused by alkalinity, detergent residue and/or water which contains carbon).
- Laundry feels pleasant and fluffy, colours regain their radiance, and the smell of the laundry is enhanced.
- prevents skin irritation due to detergent residues, improves the skin compatibility of the laundry

Art.-No. 4310101213

Accessories

chemTRAY

H x W x D: 19 x 120 x 65 cm, 60 l

- drip pan
- for the safe storage of canisters and large containers in the laundry and kitchen area
- suitable for holding containers up to 60 l
- design tested and approved

Art.-No. 4450702800

havon MANUAL –  
manual detergent dispensing

The system includes liquid and powder detergents as well as fabric softeners and washing aids, which are especially suitable for use in small and medium-sized businesses.

havon INTEXO

5 kg

- all-purpose washing powder
- liquid, highly concentrated
- optimal for cleaning and care of white cotton laundry as well as mixed and polyester fabrics
- for radiant white laundry even at low temperatures
- dissolves within a very short time thanks to special formulation
- penetrates deep into the fibre due to innovative intenseTEX technology
- removes stains effectively and gently at the same time
- removes unpleasant odours and greying

Art.-No. 4310200510

havon INTEXO COLOR

5 kg

- detergent for coloured textiles
- liquid, highly concentrated
- optimal for cleaning and care of coloured cotton laundry as well as mixed and polyester fabrics
- dissolves within a very short time thanks to special formulation
- penetrates deep into the fibre due to innovative intenseTEX technology
- removes stains effectively and gently at the same time
- especially nurturing, innovative ingredients make colours shine and prevent colour transfer to other textiles

Art.-No. 4310200610

havon DES 40

12 kg

- disinfecting all-purpose detergent
- powder, disinfects at 40 °C
- A more detailed product description can be found on page 98.

Art.-No. 4310200738

havon DES 60

15 kg

- disinfecting all-purpose detergent
- powder, disinfects at 60 °C
- A more detailed product description can be found on page 98.

Art.-No. 4310200700

havon PERFECT

15 kg

- disinfecting all-purpose detergent
- powder for all washing machines
- disinfects from 60 °C
- bactericidal, levurocidal, mycobactericidal
- ideal for heavy-duty laundry (e.g. kitchen linen)
- dermatologically tested and approved

Art.-No. 4310200100

havon COLOR

15 kg

Art.-No. 4310200200

- detergent for coloured textiles
- high-quality powder
- for colour-sensitive laundry
- ideal for coloured table linen
- removes stubborn protein and greasy stains
- contains no bleaching agents or optical brighteners, is gentle on colours and fabrics
- keeps colours bright and beautiful
- suitable for all water hardnesses and washing temperatures from 30–95 °C

havon FEIN

6 × 1 kg\*

Art.-No. 4310200408

- mild detergent
- liquid, enzyme-free
- for wool, silk and delicate synthetic laundry (Goretex, microfibre)
- enhances colours of the textiles by means of added colour care agents
- free from bleaching agents and optical brighteners
- ideal for cleaning and care of coloured laundry
- for soft, velvety fabrics with a fresh flower scent
- for washing temperatures: 30–60 °C

havon ULTRA

18 kg

Art.-No. 4310200300

- all-purpose washing powder
- powder for professional requirements
- suitable for all fabrics (except for wool and silk)
- for brilliant white, well-cared for and delicately scented laundry
- bleaching effect, even at 40 °C
- suitable for all water hardnesses and washing temperatures

\* Purchase 6x1 kg and get one dosingAID free of charge!

havon additional components

havon SOFT4

10 kg

Art.-No. 4310300111

25 kg

Art.-No. 4310300113

- fabric softener
- 4 x concentrated
- reduces the drying time in the dryer by up to 10%
- conditioning agents make ironing easier and improve skin friendliness
- prolongs laundry life time
- for soft, anti-static laundry with a mild, fruity fragrance
- can be used both via the liquid dosing unit in the havon PROFES-SIONAL system and manually

havon MILD

10 kg

Art.-No. 4310300211

- fabric softener
- reduces the drying time in the dryer by up to 10%
- conditioning agents make ironing easier and improve skin friendliness
- prolongs laundry life time
- for soft, anti-static laundry with a wonderful spring fragrance

havon additional components

havon P6 PLUS

10 kg

Art.-No. 4310300811

- laundry starch
- liquid
- for all types of fabric (except silk)
- Ideal for table and bed linen, curtains and shirts, but also as spray starch before ironing
- Stabilizes strained fabric and improves elasticity
- can be applied both by the liquid dosing unit in the havon PROFES-SIONAL system and manually

havon POWER

6 × 1 kg

Art.-No. 4310300908

- special bleach
- liquid, based on active oxygen
- removes difficult and bleachable stains (e.g. red wine, curry, fruit) at 30 °C
- provides an antibacterial and antifungal effect at 20 °C
- particularly suitable for textiles prone to unpleasant odours (e.g. sports-wear, incontinence underwear)
- unsuitable for silk, polyamide or elastomer

havon CHLOR TABS

1 kg

Art.-No. 4310300428

- bleach
- highly concentrated, in tablet form
- dissolves effervescently, develops full effect immediately
- highly effective against problematic stains (e.g. fruit, seed oil)

havon FS

6 × 1 kg

Art.-No. 4310300508

- stain remover
- liquid
- perfect for the thorough removal of all fat and oil stains (e.g. grimy kitchen clothing, table linen and (mineral oil-stained) work clothing)

havon RUSTEX

6 × 1 kg

Art.-No. 4310301108

- special stain remover for rust stains on textiles
- for all kinds of laundry (except wool and silk)

havon ACTIVE

5 kg

Art.-No. 4310300632

- stain removal salt powder
- powder, all-purpose
- removes colored, bleachable stains (e.g. coffee, red wine, fruit) as well as all mixed stains (e.g. gravy, lipstick, fruit quark) at as low as 30°C
- yellowed textiles become radiant white again

havon CALC

6 kg

Art.-No. 4310300732

- water softener
- powder
- prevents limescale building up in the washing machine and on the laundry
- extends the washing machine's service life
- laundry does not grey
- using at a water hardness from 16 °dH reduces detergent consumption

## Janitorial hygiene

When it comes to cleaning buildings, it's all about the perfect interplay of water, cleaner and equipment. You need to be able to clean floors and

surfaces easily, efficiently and sustainably. Haglaitner provides you with the right tools for every facility management area.

**System cleaning**  
i.h.s.

**Precise dosing of high concentrates**  
integral 2GO HsM

**Surfaces** All-purpose, glass, power, metal, stainless steel, universal cleaners

**Cleaning equipment**  
System trolleys, mops, brushes and brooms, wipes and sponges, window cleaning, dosing aids, bin liners, bench covers and gloves

**Scent marketing**  
MAGICUS

**Floors**  
Maintenance cleaning, basic cleaning, coating and carpet cleaning

**Sanitary areas**  
Sanitary, scented, drain cleaners, scented oils and bowl blocks

## Digital facility cleaning

Seven highly concentrated cleaning agents cover all facility management needs. The most precise dosing device in its class automatically mixes them with water in the perfect ratio – thanks to the patented precision pump.

The device not only dispenses finished cleaning solution, but also sends data: on consumption, fill level and pump status. The data is sent via Bluetooth to a smartphone or Gateway and from there to a secure cloud. The information can be viewed in real time via the Haglaitner360 app on the smartphone and via HsM on the laptop and PC. The Haglaitner360 app can also be used to make individual device settings as required.

- Long-lasting:** Up to 2,600 refillBOTTLEs (0.5 l refillBOTTLE – see page 89) can be filled with 2.6 l of high concentrate.
- Compact:** multiFILL cartridges are practical and can be stored without taking up much space.
- Intuitive:** operation is easy and convenient.

Simply wipe.  
And nothing is wasted!

Drained? Dip. Squeeze. Wipe. Time slips through your fingers. But it never gets really clean. You go round and round in circles – with two buckets?

There is another way – it's innovative, more hygienic, more convenient and faster. Hagleitner was the one that invented the i.h.s. system. And if there's one thing that goes round in circles, it's this:

Take a fresh wet mop. Or would you rather have a fresh wet microfibre cloth? And start cleaning. You can clean up to 25 square metres with one mop.

Afterwards, throw the mop and cloth into the dispenser bag – and from there into the washing machine. Set the temperature to 60 °C. Wash with disinfectant. Everything comes out fresh and clean again.

Ready for the next round? Fill the safetyBOX with soaking solution. Now put 20 mops in it. Or place 18 microfibre cloths in the safetyBOX SMALL. And then add the impregnating solution. Next, allow the cloths and mops to soak for 15 minutes. The cycle can now start all over again.

The i.h.s. system

integral 2GO

havon PROFESSIONAL / MANUAL

safetyMOP system

**i.h.s.**  
Ergonomic in all work processes

The i.h.s. circle:

**i.** as in integral 2GO HsM: the most precise dosing device in its class allows high concentration cleaning agent and water to combine in exactly the right quantity.

**h.** as in havon: washing power from Hagleitner. Manually dosed? Or fully automatic? Whichever you prefer.

**s.** as in safetyMOP: Your mop locks into the holder without you having to bend down. The four-colour guidance system helps you find your way around. And with the 650 ml bottle of the safetySPRAYER, you can do justice to even the largest surfaces.

Dip? Squeeze? Wipe it off? Wiping once is enough. Because dirt and pathogens cannot spread: each room has its own mop and its own microfibre cloth – after use, simply pop them in the washing machine. Where both belong. And where viruses and bacteria don't stand a chance: 0% germ transmission. 100% hygiene. 30% more time. 30% less expenditure.

**integral 2GO HsM**

HxWxL: 38.3 x 19.8 x 19.2 cm Art.-No. 4410101250

high-precision dosing device

- app-controlled, transmits operating data
- mixes highly concentrated cleaning agents and water in the perfect ratio, dispenses ready-to-use cleaning or disinfecting solution
- dispenses small quantities: from 0.4–1.5 l in 0.1 l increments
- dispenses large quantities: from 1–50 l in 0.5 l increments

**integral 2START**

Art.-No. 4410100800

Installation kit, consisting of:

- hose (length: 3 m, ø: 12 mm)
- 3/4-inch water connection
- five mounting clips
- aquastop
- assembly aid (orange, for perfect wall mounting of several dispensers in a row)

Options

**powerPACK ex**

Art.-No. 4111202400

- surface-mounted power supply unit
- cable length: 150 cm

**powerPACK in**

Art.-No. 4111203100

- flush-mounted power supply unit
- suitable for the installation in a cavity wall box 68 (minimum size)

**powerPACK extension**

Art.-No. 4111206500

- 1.5 m extension cable
- suitable for powerPACK in and powerPACK ex

**powerPACK BOX**

Art.-No. 4111204700

- power supply unit – for non-battery operation of the integral 2GO HsM dosing device
- for high-frequency and simultaneous use of several dispensers
- The connection of the power supply unit to the dispenser must be installed by an electrician.
- Alternatively, the integral 2GO HsM can be directly supplied with power from the mains using the powerPACK BOX.

**HsM gatewayLAN and SIM**

- A more detailed product description can be found on page 26.

Replacement parts for integral 2GO HsM

**SHORTCUT integral 2GO**

Art.-No. 4920501000

- plastic hose nozzle
- for professional shortening of PIPE integral 2GO (max. 40 cm)

**PIPE integral 2GO**

Art.-No. 4920500800

- silicon hose
- resistant to chemicals
- connection for outlet nozzle and nozzles for large quantity dispensing

**PUMP integral 2GO HsM**

Art.-No. 4920501500

- pump
- solenoid-operated
- The pump is included in the integral 2GO HsM dosing device maintenance contract and is therefore proactively replaced in the course of the service interval.

**DOSE integral 2GO**

Art.-No. 4920501200

- Dispensing fitting
- splash guard for dispensing large and small quantities

Accessories

**LABEL 2GO**

- labels, 4 per sheet
- self-adhesive – for labelling the 0.5 l refillBOTTLE and the 1 l refillBOTTLE (see page 89)
- available in 17 languages
- with pictograms and colour coding – for correct labelling of the ready-to-use application solution from the integral 2GO HsM dosing device (see page 73)

10 l  
Art.-No. 4451200308  
Art.-No. 4451200411

- multi-purpose cleaner
- liquid, highly concentrated
- perfect for cleaning all washable surfaces
- highly effective against oil and grease stains
- no solvent
- cleans streak-free
- leaves a fresh citrus scent

**allround ECO**  
6 x 1 kg  
10 kg  
Art.-No. 4420100508  
Art.-No. 4420100511

- power cleaner
- concentrated
- ideal for cleaning all waterproof surfaces (floors, tiles, windows, etc.)
- minimal foaming and effective at dirt removal – ideal for cleaning with high-pressure equipment and floor machines
- gentle on materials, so can also be used on sensitive surfaces (e.g. aluminium ceilings in kitchens)
- has a degreasing effect (when cleaning oiled wooden floors with a damp cloth, make sure to re-oil regularly)

**fox ECO**  
6 x 1 kg  
10 kg  
Art.-No. 4450100808  
Art.-No. 4450100811

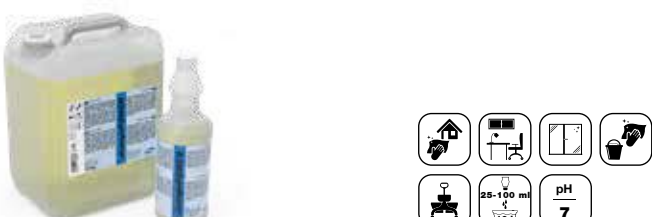

- surface cleaner
- gel-like, foams well, environmentally friendly
- highly effective at removing fat and dirt
- ideal for cleaning all waterproof surfaces (worktops, floors, windows, fixtures), as well as for manual dish and glass washing
- dermatologically tested
- proven to be gentle on the skin – with gentle ingredients and skin-neutral pH value
- with a soothing lime-herb fragrance

**FOX**  
6 x 1 kg  
10 kg  
25 kg  
Art.-No. 4450100108  
Art.-No. 4450100111  
Art.-No. 4450100113

- surface cleaner
- liquid
- highly effective at removing fat and dirt
- foaming – making it ideal for manually washing dishes and glasses
- also for cleaning all waterproof surfaces (floors, tiles, windows, etc.)
- with a subtle lemon fragrance
- For sensitive skin and stricter hygiene requirements (HACCP), we recommend fox 3in1 (see page 63).

# Surface cleaner

**orangePOWER**  
6 x 1 kg  
10 kg  
Art.-No. 4450100708  
Art.-No. 4450100311

- power cleaner
- liquid, concentrated
- ideal for manual cleaning of all waterproof surfaces (floors, tiles, windows, etc.)
- gentle on materials, so can also be used on sensitive surfaces (e.g. aluminium)
- natural orange oils leave a pleasant fruity scent

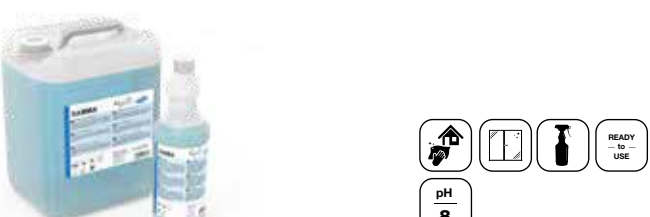

**desktopPOWER**  
6 x 1 l\*  
10 l  
Art.-No. 4450100908  
Art.-No. 4450100911

- multi-purpose cleaner
- liquid, ready to use
- Ideal for daily maintenance cleaning of all washable objects (except acrylic glass)
- with anti-static effect, making it ideal for use on plastics and for cleaning screens, keyboards, etc.
- dries fast and streak-free

**WINDOWS**  
10 l  
Art.-No. 4451200511

- glass cleaner
- liquid, highly concentrated
- ideal for cleaning all smooth, waterproof surfaces (e.g. windows, glass façades, mirrors, window frames) with wash fleece and rubber squeegee
- with anti-static effect
- high anti-friction properties contribute to longevity
- leaves a pleasant, fresh fragrance

**SAMBA**  
12 x 1 l\*\*  
10 l  
Art.-No. 4451200608  
Art.-No. 4451200711

- glass cleaner
- liquid, ready to use
- ideal for easy cleaning of all smooth surfaces (e.g. windows, frames, mirrors, plastic and metal surfaces)
- dries fast and streak-free
- stops dirt from quickly building up again

**glass ECO**  
6 x 1 kg\*\*\*  
10 kg  
Art.-No. 4420100608  
Art.-No. 4420100611

- glass cleaner
- liquid, economical in consumption
- ideal for easy cleaning of all smooth surfaces (e.g. windows, glass, mirrors, tiles, fittings)
- removes fingerprints as well as greasy and oily dirt
- leaves a streak-free shine, ensuring naturally radiant cleanliness

**hup GLASS XL roll**  
3 x 90 pieces, H x W: 30.5 x 32 cm  
Art.-No. 4450301600

- glass and mirror-cleaning wipes
- ready-to-use (moist), extra large, lint-free and tear-resistant
- for instant use, for the quick removal of light dirt (such as finger prints on entrance doors, glass counters, mirror surfaces)
- for safe use with the hup BOX, the airtight wipe dispenser system; can be wall-mounted with hup WALL; includes labels for hup BOX (see page 97)

# Surface cleaner

## WISK

17 x 250 ml

- special cleaner for surfaces
- ready to use
- effortlessly removes stains from ballpoint pens, fountain pen, felt-tip pens, paper, stamps, grease and oil from solvent-resistant surfaces
- also suitable for removing protective silicone layers from new furniture

Art.-No. 4451300741

## möbelPOLITUR

6 x 0.8 kg

- furniture care
- cares for and revitalises wood structures
- wood gets a long-lasting, silky matt shine
- stops dirt from quickly building up again and leaves a pleasant scent
- apply undiluted and wipe off

Art.-No. 4450200308

## KING

6 x 0.8 kg\*

- care and cleaning of stainless steel
- liquid and extremely economical in use
- preserves surfaces
- removes grease and dirt residues from matt and polished stainless steel surfaces and aluminium

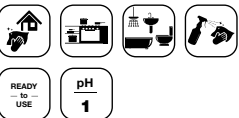

Art.-No. 4450202508

## metalGLANZ

6 x 1 kg

- metal cleaning and care product
- liquid
- high-quality metal surfaces (chrome, brass, bronze, nickel, copper) are cleaned by fine abrasive particles without scratching
- gives a shiny, practically new appearance
- special care film protects metal from renewed tarnishing in the long term
- ideal for stainless steel surfaces in kitchens, prevents metal abrasion on dishes

Art.-No. 4450200108

## allzweckPASTA

10 kg

- surface cleaner
- paste – creamy, white gloss
- ideal for cleaning all uncoated surfaces (floors, tiles, doors, furniture, etc.)
- also used to soak dirty shirt collars
- leaves a fresh lemon scent

Art.-No. 4450100527

\* Purchase 6x1 kg – get one sprayGUN free of charge!

\*\* Purchase 6x1 kg – get six foamGUNs free of charge!

# All-purpose hygiene

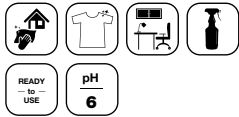

## Special products

## deoFRESH

6 x 1 kg\*\*

- odour remover
- ready-to-use, effective odour-neutralising spray
- reliably and permanently removes unpleasant odours (e.g. kitchen odours, cigarette smoke, sweat, rubbish) from the air and from textiles (curtain, sofa, carpet, car seat, clothing, etc.)
- spreads a subtle floral fresh scent

Art.-No. 4450200408

## X CALC

6 x 1.1 kg

11 kg

- descaling agent
- liquid, effective
- highly effective against hard, thick limescale deposits in dishwashers and glass washers, kettles, washing machines, steam nozzles, and wet room areas, etc.
- extends the life of machines and devices considerably

Art.-No. 4210200608

Art.-No. 4210200611

## sunFRESH

6 x 0.5 kg

- room spray
- ready to use
- long-lasting cigarette and food odour neutraliser
- For the elimination of unpleasant odours from textiles, we recommend: deoFRESH.

Art.-No. 4450200507

## eisFRESSER

22 kg

- defroster
- round granules
- effortlessly removes ice from pedestrian surfaces (steps, paths, drive-ways, entrances, car parks, helipads, pavements, etc.)
- dissolves ice in a significantly more environmentally friendly way and up to eight times faster than road salt
- prevents re-freezing of the cleared surface down to minus 30 °C

Art.-No. 4450200231

## Scent marketing

## MAGICUS

H x W x D: 89 x 27 x 27 cm

- scent and light column
- for automatic dispensing of room fragrance
- diffuses fragrances evenly in 50 to 250 square metre rooms
- different colour settings possible
- fragrance intensity and interval individually adjustable
- low noise, visually appealing
- fragrance mixtures designed for use in fragrance marketing

Art.-No. 4450800100

## MAGICUS greenTEA

2.5 l

- room scent
- for the MAGICUS scent and light column
- IFRA-compliant and hypoallergenic
- the scent of green tea conveys a feeling of cleanliness and order, and has a revitalising effect on body and mind
- particularly suitable for use in department stores, hotel lobbies, seminar rooms and long corridors

Art.-No. 4450900300

## MAGICUS whiteMUSK

2.5 l

- room scent
- for the MAGICUS scent and light column
- IFRA-compliant and free from allergenic substances
- the musky scent conveys a sense of well-being, and has a calming effect
- especially suitable for use in relaxation rooms, bars and lounges

Art.-No. 4450900200

Sanitary hygiene

Sanitary cleaner

**sanitary 2GO**

2 × 2.6 l

Art.-No. 4410200619

- sanitary cleaner
- for everyday maintenance cleaning
- A more detailed product description can be found on page 74.

**BULSAN**

12 × 1 l

10 l

Art.-No. 4440300108

Art.-No. 4440300211

- sanitary cleaner
- liquid, acidic
- ideal for cleaning all acid-resistant surfaces (e.g. tiles, washbasins, fittings, toilets, glass, plastic)
- with instant dissolving power and corrosion protection
- no re-shamming necessary thanks to the repellent effect
- leaves a pleasant, fresh fragrance

**perGLANZ**

6 × 1 kg\*

10 kg

Art.-No. 4440100208

Art.-No. 4440100211

- sanitary cleaner, liquid
- ideal for daily maintenance cleaning of toilets, urinals and wet room areas
- highly effective against limescale and dirt deposits
- prevents the development of unpleasant odours
- with repellent effect – leaves a drip-free surface requiring no extra drying
- stops dirt from quickly building up again
- For thorough cleaning of stubborn deposits (e.g. urine scale), we recommend: UROPHEN.

**CLEO blue**

12 × 1 l

10 l

Art.-No. 4440300908

Art.-No. 4440301011

- sanitary cleaner
- liquid, neutral scented cleaner
- ideal for cleaning changing rooms, saunas, indoor and outdoor swimming pools, etc.
- cleans gently and streak-free, without wiping
- leaves a pleasant, fresh fragrance for a well-maintained indoor climate

**easySPRAY**

6 × 1 kg\*\*

10 kg

Art.-No. 4440100108

Art.-No. 4440100111

- cleaner for bathrooms and showers
- liquid
- ideal for cleaning fittings, tiles, shower cubicles and bathtubs
- highly effective against limescale, dirt and soap residues, even in hard-to-reach places
- spreads a fresh ocean fragrance

**UROPHEN**

6 × 1 kg

10 kg

Art.-No. 4440100308

Art.-No. 4440100311

- sanitary cleaner
- liquid, powerful
- ideal for thorough cleaning of toilets, urinals and wet room areas (do not use on fittings)
- highly effective against heavy soiling and deposits (e.g. limescale, urine scale, rust)
- prevents the development of unpleasant odours long term
- spreads a pleasant floral scent
- For everyday maintenance cleaning, we recommend perGLANZ or hagodorPURE/FLIEDER.

**hagodorPURE**

6 × 1 kg\*\*

10 kg

Art.-No. 4440101408

Art.-No. 4440101411

- sanitary cleaner
- liquid, powerful scented cleaner
- ideal for cleaning changing rooms, saunas, indoor and outdoor swimming pools, etc.
- highly effective against all kinds of dirt (except algae, limescale, urine scale) on all surfaces in sanitary and wet room areas (can also be used on marble)
- Prevents the build-up of unpleasant odors over a long period of time
- For stubborn deposits (limescale, urine scale), we recommend: UROPHEN

**hagodorFLIEDER**

6 × 1 kg\*\*

10 kg

Art.-No. 4440100608

Art.-No. 4440100611

- sanitary cleaner
- liquid, powerful scented cleaner – all-purpose use
- ideal for cleaning and scenting changing rooms, care homes, guest rooms, doctors' surgeries, etc.
- highly effective against all kinds of dirt (except algae, limescale, urine scale) on all surfaces in sanitary and wet room areas (can also be used on marble)
- Prevents the build-up of unpleasant odors over a long period of time
- For stubborn deposits (limescale, urine scale), we recommend: UROPHEN.

**B & S**

10 l

Art.-No. 4431800411

- building and swimming pool cleaner, liquid, extremely acidic
- ideal for cleaning all acid-resistant floors and surfaces during final cleaning of buildings, limescale removal, deep cleaning of wet rooms, bathrooms and canteen kitchens as well as for decalcifying equipment (according to manufacturer's instructions)
- highly effective, minimal foam

**CLOSOL**

6 × 1.3 kg

Art.-No. 4440200322

- sanitary cleaner, powder, effervescent
- highly effective against extreme deposits (e.g. limescale, urine scale), especially in toilet bowls
- prevents the build-up of unpleasant odors over a long period of time
- spreads a pleasant scent of pine
- To remove soiling and to clean other sanitary rooms, we recommend hagodorPURE/FLIEDER.

**blueMARINES**

6 × 1 kg

Art.-No. 4440200433

- bowl blocks for urinals
- pressed, dissolve slowly and without residue
- micro-organisms prevent the development of unpleasant odours both in the urinal and in the pipework
- prevent the formation of limescale residues
- spread a pleasant, subtle, fresh scent

Sanitary hygiene

**sanitary 2GO**

- floor mop care
- wax and soap-free
- based on water-soluble polymers
- suitable for both manual and machine cleaning of waterproof, coated and uncoated floor coverings
- with optimal cleaning and care properties

**hacoGLANZ ECO**  
6 x 1 l  
10 l  
Art.-No. 4420101108  
Art.-No. 4420101111

- gloss cleaner
- powerful, for all waterproof floor coverings and surfaces
- for manual and machine application
- outstanding dirt remover
- ideal for heavily soiled smooth floor surfaces; best suited for high-gloss, polished surfaces and coated floors

**ALCOFLOR**  
6 x 1 l  
10 l  
Art.-No. 4430300508  
Art.-No. 4430300511

- alcohol-based cleaner
- gentle, for all shiny hard and coated floors
- leaves a pleasant, fresh scent

**bluetop ECO**  
6 x 1 l  
10 l  
Art.-No. 4420100908  
Art.-No. 4420100911

- surface and floor cleaner
- gentle, ideal for maintenance and deep cleaning of all washable materials and objects
- leaves a subtle, fresh scent

Floor – maintenance cleaner

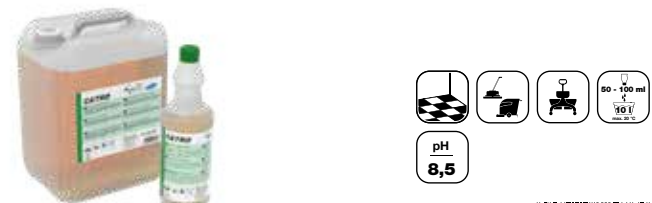

**timberCLEAN ECO**  
6 x 1 l  
Art.-No. 4420100808

- wooden floor soap
- rapeseed-oil basis – environmentally friendly, natural
- for all oiled, waxed and untreated wooden floor coverings
- good cleaning and replenishing effect
- does not build up layers
- almond oil nourishes the wood surface
- leaves a silky matt protective film
- can be polished by machine if required

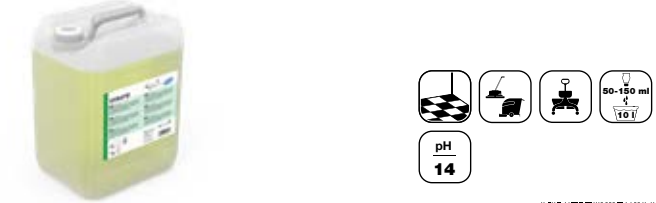

**wp3**  
6 x 1 l  
10 l  
Art.-No. 4430300408  
Art.-No. 4430300111

- hard floor cleaner
- slip-resistant, for all kinds of waterproof flooring
- cleans, protects and maintains the floor shine
- particularly suitable for improving the slip resistance of coated floors and coverings (e.g. in gymnasiums, gymnastics rooms, old people's homes and nursing homes)

**CATRO**

# Floor hygiene

## Basic cleaner

pH 13,5

**ZACK**  
10 l  
Art.-No. 4430100211

- basic floor cleaner
- for all kinds of waterproof, alkali-resistant flooring (PVC, stone)
- not suitable for linoleum and natural rubber floors
- easily removes old maintenance coatings
- also suitable as a deep cleaner for uncoated surfaces

pH 11

**SKAT**  
10 l  
Art.-No. 4430100111

- basic floor cleaner
- for all kinds of waterproof, alkali-sensitive flooring (linoleum, rubber)
- not suitable for wood
- easily removes old maintenance coatings
- also suitable as a deep cleaner for uncoated surfaces

pH 11

**NEOLAN ECO**  
10 l  
Art.-No. 4430100711

- basic floor cleaner
- for all kinds of waterproof, alkali-sensitive flooring (linoleum, rubber)
- not suitable for wood
- removes maintenance coatings
- also suitable as a cleaner for uncoated surfaces

pH 13

**stoneCLEAN ECO**  
6 x 1 l  
Art.-No. 4430100608  
10 l  
Art.-No. 4430100511

- fine stoneware cleaner
- tenside-free, with great dirt-removing power
- ideal for microporous surfaces (e.g. fine stoneware coverings, natural stone, for all rough stone coverings)
- suitable for machine cleaning, maintenance cleaning and thorough cleaning

## Coatings

pH 8,5

**PERFECT**  
10 l  
Art.-No. 4431900411

- floor coating
- very durable and hard-wearing, all-purpose
- for sealing waterproof floor coverings (linoleum, PVC, natural rubber, etc.)
- forms a glossy, durable and highly elastic protective film
- suitable for the Ultra-High-Speed method

pH 8,5

**SELECT**  
10 l  
Art.-No. 4431900111

- floor coating
- extremely hard-wearing, all-purpose (linoleum, PVC, natural rubber, etc.)
- for sealing waterproof floor coverings
- forms a glossy, durable and highly elastic protective film
- suitable for the Ultra-High-Speed method

# Floor hygiene

## Coatings

pH 8,5

**selectMATT ECO**  
10 l  
Art.-No. 4431900211

- floor coating
- extremely durable, all-purpose
- for sealing waterproof floor coverings (linoleum, PVC, natural rubber, etc.)
- forms a matt, durable and highly elastic protective film
- suitable for the Ultra-High-Speed method

pH 8,5

**selectMED**  
10 l  
Art.-No. 4431901111

- floor coating
- largely resistant to alcohol and disinfectants
- for all waterproof floor coverings
- not for use on uncoated hardwood floors, polished stone surfaces, tiles or fine stone
- forms a high-gloss protective film
- suitable for the Ultra-High-Speed method

pH 8,5

**perfectANTISLIP**  
10 l  
Art.-No. 4431901211

- floor coating
- contains wax – for sealing waterproof floor coverings
- forms an elastic, slightly glossy protective film
- anti-slip according to DIN 18032-2
- suitable for gymnasiums, exhibition halls, gymnastics rooms, old people's homes and nursing homes

pH 8

**SIVEX**  
10 l  
Art.-No. 4431901311

- floor coating
- for sealing natural floors such as marble, stone and terracotta
- maintains, protects and safeguards the properties of the coverings
- forms a silky-matt protective film that is easy to polish both manually and mechanically

pH 8

**PORECT**  
10 l  
Art.-No. 4431901011

- pore filler
- for highly absorbent floors such as linoleum, natural stone and concrete
- ideal for basic cleaning linoleum and stone coverings
- not for use outdoors, for polished, glazed coverings and fine stoneware

pH 7

**selectBLACK**  
17 x 200 ml  
Art.-No. 4431900841

- black dye
- for colouring or blackening all coatings

Carpet cleaner

**carpetPRO ECO**

10 l

Art.-No. 4430400311

- carpet cleaner
- concentrated, tenside and enzyme-free
- for cleaning dyed carpeted floors
- does not attack the manufacturer's protective coatings
- perfectly suited to the spray extraction method

**carpetSPRAY ECO**

6 x 1 l\*

Art.-No. 4430400208

- carpet cleaner
- tenside-free
- removes dirt and stains from carpets
- ideal for cleaning upholstered furniture and textile covers

\* Purchase 6 x 1 l – get six sprayGUNS free of charge!

Special cleaner

**TAP**

6 x 500 ml

Art.-No. 4430600507

- foam inhibitor concentrate
- effectively prevents foaming in the dirty water tank

**mopSPRAY**

6 x 1 l

Art.-No. 4430600208

- floor cleaning oil
- spray, for all kinds of floors
- binds fine dirt, facilitating dry-mopping
- economical in consumption
- leaves a dust-free, clean surface
- For uniform and ergonomic spreading of the product on the mop, we recommend using the press-pumpBOTTLE.

**DETAS**

10 x 500 ml

Art.-No. 4430600407

- stain remover
- solvent – easily removes chewing gum, candle wax, adhesives, tar, etc.

100 pieces/pack, L Art.-No. 4451001500  
100 pieces/pack, XL Art.-No. 4451002200

- nitrile glove
- free from latex proteins
- excellent stretchability, for pleasant wearing comfort
- high mechanical resistance
- meets the medical requirements in the tattoo and piercing sector
- besides body art and beauty, suitable for use in HACCP-relevant areas (e.g. food serving and preparation)

disposableGLOVES

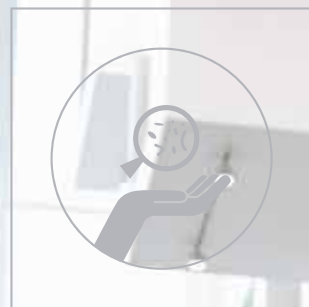

25 x 250 pieces Art.-No. 4111100800

- disposable embossed polyethylene gloves
- one size, multi-purpose
- protects against dirt and unpleasant odours when handling fuels and oils, taking samples, at petrol stations, etc.

\* A detailed overview of standards, tests and chemical resistance of the different glove types can be found at [www.hagleitner.com](http://www.hagleitner.com).

## Disinfection

Disinfection must be effective – demonstrably so; expert opinions give their seal of approval. It's all about health. The European Union's Biocide Regulation sets clear standards, so look out for this symbol at Hagleitner:

EUROPEAN BIOCIDES REGULATION  
**COMPLIANT**

These products comply with Biocide Regulation 528/2012, corresponding with state-of-the-art development.

If bacteria and viruses spread unchecked, this can have serious consequences.

All disinfection products for hand, dish, laundry and surface disinfection as well as the disinfecting cleaning wipes come from Hagleitner.

Research, development, production, packaging and saturation take place on site in Zell am See.

This not only guarantees delivery reliability, but also reduces transport distances and CO2 emissions.

**Hagleitner has made it its business to counteract this – with**

certified disinfection for hands, dishes, laundry and surfaces

**and**

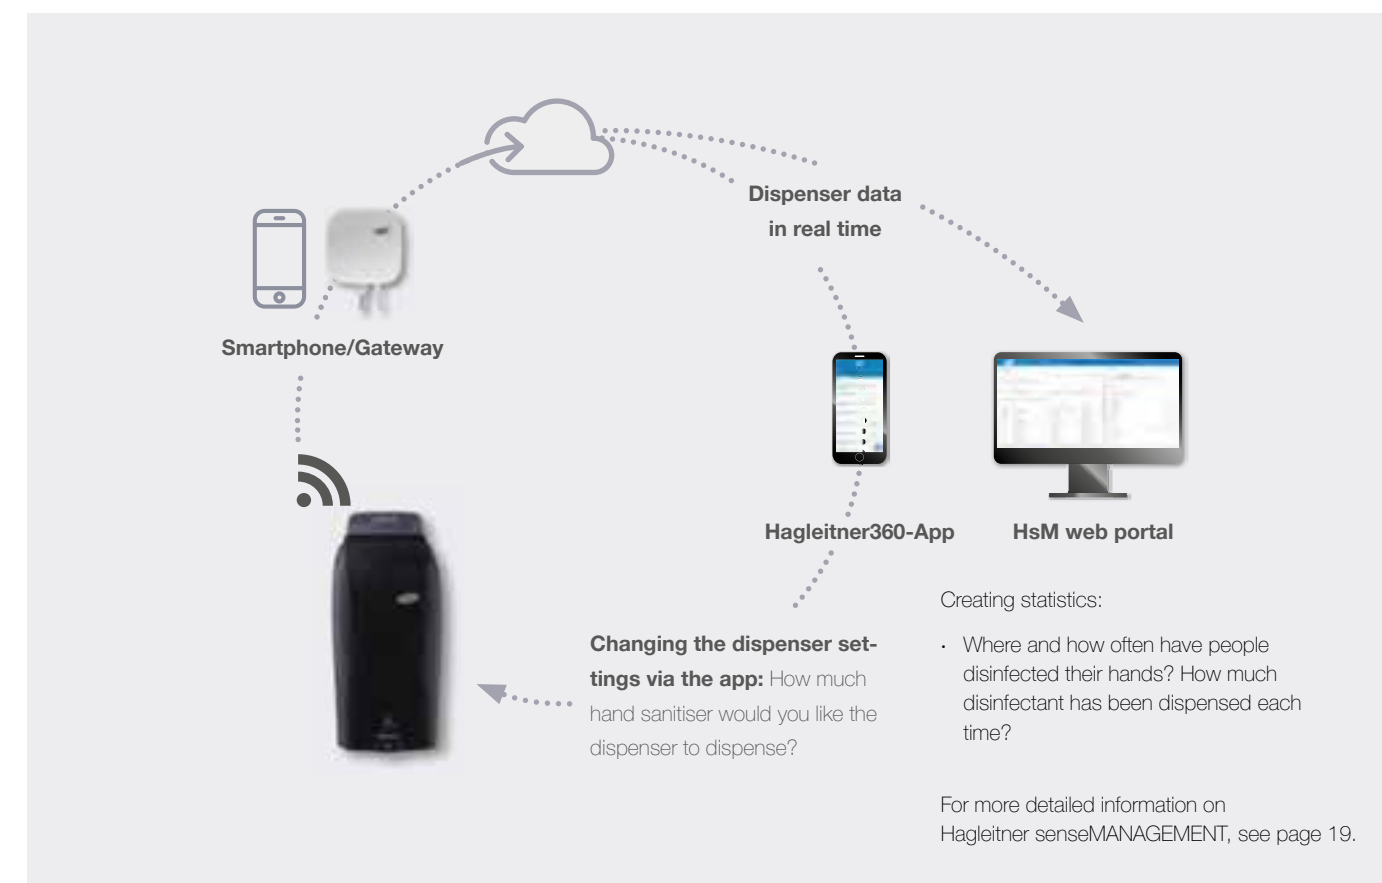

Digital hygiene monitoring – makes hygiene visible, and easy to plan and document.

**For increased safety**

## Digital hygiene monitoring

# Surface disinfection

## Highly concentrated disinfectant

**hygienicDES 2GO**  
2 × 2.6 l

Art.-No. 4410300419

EUROPEAN BIOECIDE REGULATION  
**COMPLIANT**

- disinfectant surface cleaner
- pH-neutral, highly concentrated
- especially suitable for sensitive surfaces
- bactericidal, levurocidal, mycobactericidal, virucidal
- all-purpose use in the spa and health care sector
- touchless dosing with integral 2GO

**sanitaryDES 2GO**  
2 × 2.6 l

Art.-No. 4410300619

EUROPEAN BIOECIDE REGULATION  
**COMPLIANT**

- disinfecting sanitary cleaner
- pH-acidic, highly concentrated
- cleans, disinfects and removes limescale
- bactericidal, levurocidal, mycobactericidal, virucidal
- all-purpose use in sanitary and spa areas
- touchless dosing with integral 2GO

## concentrated disinfectant

**hygienic3000**  
10 kg

Art.-No. 4460100411

EUROPEAN BIOECIDE REGULATION  
**COMPLIANT**

- surface disinfectant
- pH-neutral concentrate
- especially suitable for sensitive surfaces
- bactericidal, levurocidal, limited virucidal; additionally virucidal against polyoma and rotaviruses
- all-purpose use in the spa and health care sector

**hygienicDES AC**  
10 kg

Art.-No. 4460101611

EUROPEAN BIOECIDE REGULATION

# hup – disinfectant wipes with a system

Hagleitner Hygiene researches, develops and produces in Zell am See. The disinfectant solution comes from Hagleitner, Hagleitner makes it,

and also impregnates the wipes on site – no additional transport routes, no additional CO<sub>2</sub> emissions and guaranteed delivery reliability.

## hup DES FORTE

Everyday life in the kitchen is often hectic, and staff shortages certainly don't make things any easier. Yet at the same time, it is essential that food hygiene is not compromised.

hup DES FORTE disinfectant wipes are effective within just one minute and can be used safely and flexibly. Their efficacy has been verified in a 4-field test. The disinfectant wipes leave no harmful or taste-changing residues; they are food-safe and thus perfectly suited for use in food-related areas.

## hup DES PLUS

In many cases, high-end, quality surfaces are made of sensitive materials requiring careful treatment to keep them that way. hup DES PLUS disinfectant wipes are specifically made for such cases and can even be used on wood, leather and perspex.

The wipes are neither toxic nor irritant nor flammable, i.e. they are not subject to labeling. In addition, the wipes are gentle on the skin and can be used without gloves; skin contact with the surface is possible as soon as it dries without any need for concern; both are dermatologically tested.

# Single wipes from the flowpack

Ready to use: medium-sized wipes for medium-sized areas and objects (approx. 1 m<sup>2</sup> per wipe)

- Resealable pack
- reliably easy to remove
- handy, versatile, usable anywhere
- ideal for dispensing the active ingredient

- tear-resistant and lint-free
- easy to use
- ready to use and therefore time-saving
- works in just one minute
- perfume-free
- cleans and disinfects in one go
- tested to the latest European standards

### hup DES FORTE M

6 × 100 wipes, 20 × 20 cm

Art.-No. 4450304042

- disinfecting surface cleaning wipes
- ready to use, with alcohol
- for alcohol-resistant, medium-sized surfaces
- bactericidal, levurocidal, mycobactericidal, limited virucidal PLUS; additionally effective against noroviruses within one minute
- all-purpose use in the food sector

### hup DES PLUS M

6 × 100 wipes, 20 × 20 cm

Art.-No. 4450304142

- disinfecting surface cleaning wipes
- ready to use, without alcohol
- for sensitive, medium-sized surfaces\*
- bactericidal, levurocidal, limited virucidal; additionally virucidal against polyoma and rotaviruses
- all-purpose use

\* not suitable for screens

# hup – disinfectant wipes with a system

## Wipes on a roll

Ready to use: large wipes for large areas (approx. 2.5 m<sup>2</sup> per wipe)

- for safe use with the hup BOX, the airtight wipe dispenser system
- can be wall-mounted with hup WALL
- can be stored right where they're needed
- all the advantages of the flowpack (see left-hand side)
- extra thick for easy wiping

- Disposable wipes make preparation unnecessary.
- abundant liquid in the wipe for a large surface area of application
- contamination-free from the hup BOX
- includes labels for hup BOX

### hup DES FORTE XL roll

3 × 90 wipes, 30.5 × 31 cm

Art.-No. 4450301400

- disinfecting surface cleaning wipes
- ready to use, with alcohol
- for large, alcohol-resistant, surfaces
- bactericidal, levurocidal, mycobactericidal, limited virucidal PLUS; additionally virucidal against noroviruses within one minute
- all-purpose use in the food sector

### hup DES PLUS XL roll

3 × 90 wipes, 30.5 × 31 cm

Art.-No. 4450301500

- disinfecting surface cleaning wipes
- ready to use, without alcohol
- for large, sensitive surfaces\*
- bactericidal, levurocidal, limited virucidal; additionally virucidal against polyoma and rotaviruses
- all-purpose use

\* not suitable for screens

### hup DRY XL roll

3 × 90 wipes, 30.5 × 31 cm

Art.-No. 4450301300

- dry non-woven wipes
- extra strong made of high-quality, lint-free non-woven material
- for impregnating with disinfectant
- for spreading of disinfectant

### hup BOX + crossLID

H × W × D: 20 × 25.5 × 16.5 cm

blue Art.-No. 4431202700  
red Art.-No. 4431202800  
green Art.-No. 4431202900  
yellow Art.-No. 4431203000

- storage box for hup XL rolls
- hup wipes can be taken out with one hand.
- can be closed airtight, prevents the wipes from drying out
- protects against germ and bacteria build-up
- sliding lid won't tear off
- hup BOX can be processed with heat or popped in the dishwasher
- hup BOX takes up little space to fit in any corner.
- no spread of germs thanks to the wall holder
- ideal for carrying on cleaning trolleys
- in four colours for easier product identification

### hup WALL

1 holder

Art.-No. 4431203100

- holder for hup BOX
- for hygienic, space-saving wall mounting
- chrome-plated
- lockable and theft-proof
- including mounting materials

# Laundry disinfection

**havon T7**  
27 kg  
64 kg

Art.-No. 4310101613  
Art.-No. 4310101615

- disinfectant laundry bleach
- liquid
- for commercial washing machines
- disinfects at temperatures as low as 40 °C & above
- bactericidal, levurocidal, mycobactericidal, virucidal, sporocidal, fungicidal
- can be used in combination with havon detergent
- harmless and odourless

**havon DES 40**  
12 kg

Art.-No. 4310200738

- disinfecting all-purpose detergent
- powder for all washing machines
- disinfests at temperatures as low as 40°C & above
- bactericidal, levurocidal, mycobactericidal, virucidal, sporocidal, fungicidal
- ideal for sensitive laundry (e.g. underwear)
- dermatologically tested and approved

**havon DES 60**  
15 kg

Art.-No. 4310200700

- disinfecting all-purpose detergent
- powder for all washing machines
- disinfects from 60 °C
- bactericidal, levurocidal, mycobactericidal, virucidal, sporocidal, fungicidal
- ideal for hygiene-sensitive laundry (e.g. underwear)
- dermatologically tested and approved

**ecosol CLEAN DES**  
4 x 4 kg

Art.-No. 4220101019

- disinfecting dishwashing detergent in block form
- highly concentrated, solid
- for commercial dishwashers
- cleans and disinfects from 45 °C
- touch-free dosing with integral COMPACT
- acts as a starch removing and bleaching agent

**ecosol DES TABS**  
2 x 70 Tabs

Art.-No. 4210400500

- disinfecting dishwasher tablets
- for domestic dishwashers
- disinfect from 45 °C
- bactericidal, levurocidal, limited virucidal effect; effective against corona and novoviruses
- individually packed in water-soluble film

**ecosol ECO DES**  
10 kg  
30 kg  
65 kg

Art.-No. 4210301111  
Art.-No. 4210301113  
Art.-No. 4210301115

- disinfectant dishwashing detergent
- liquid
- for commercial dishwashers
- disinfects from 45 °C
- Can be used in combination with ecosol dishwashing detergent
- bleaches stubborn theine and caffeine stains

Use disinfectant safely:  
always read the label and product information before use.

# Hand sanitiser

**septLIQUID SENSITIVE**
