

THE SKIN PROTECTION PLAN

ALL INFORMATION AT A GLANCE

Together with you, your HAGLEITNER expert can compile a skin protection plan for your business. This outlines which products are to be used and how. The refills used in XIBU XL senseFLUID fulfil the regulations for personal protective equipment (PPE).

The use of skin protection and hand hygiene prevents work related skin ailments and, therefore, also helps save costs.

WHAT	WHEN	WITH WHAT	HOW
 <p>Skin protection</p>	<ul style="list-style-type: none"> before work before humid works before using protective gloves before contact with dirt, fats, oils before skin-damaging activities after long working periods 	<p>handPROTECT</p>	<ul style="list-style-type: none"> only apply on dry and clean hands apply on the back of the hand cream up well allow to take effect for several minutes
